enlightenment in the context of the various states of enlightenment one may progress through on the spiritual journey The part Kundalini plays in this progress is clearly explained as well as how to work with kundalini in simple but powerful kriya meditations The nature of kundalini and how it will eventually return to its source The absolute Self is also clarified Furthermore the classic yogic text Patanjali s Yoga Sutras is translated and commented upon Also the three tantric classics Pratyabhijnahridayam Spanda Karikas and Vijnanabhairava are translated and commented upon Jan Esmann shortly describes his own amazing journey and how he became a siddha capable of giving the rare shaktipat initiation which places the receiver of shaktipat on a spontaneous and automatic path towards enlightenment Thus he teaches from experience only

Beyond Self-Realization Paul Breer,2018-06-21 Beyond Self Realization In his previous book on philosophy The Spontaneous Self the author argued that the concept of free will is an illusion while detailing what it might imply for our thoughts feelings and behavior to dispel that belief The present volume takes the argument further With equal emphasis on theory and practice it illustrates how giving up one s identity as a free willing inner I can serve as a stepping stone to the state of enlightenment To experience enlightenment we have to go beyond self realization and that can happen only if we change the way we define ourselves Given the ubiquitous value placed on the self in our Western culture that is not an easy task If the path to enlightenment can be envisioned as a trail leading to the top of a mountain the self can be seen as a large rock blocking the way To get to the top we have to either blast our way through the rock or go around it Most spiritual traditions opt for the latter In Beyond Self Realization the author lays out a plan for blasting our way through The plan consists of two steps first a gradual shrinking of the self illusion and second a total uprooting of the self tree The techniques used include meditation contemplation linguistic exercises and group work in which members look for signs that the self illusion is present in their behavior Once a sign is detected the other techniques are brought to bear on removing the rock When applied with persistence the practice is designed to release one from the cage of quiet desperation in which most of us are trapped Once released we are free to discover who we really are The Lessons Sandra Casey-Martus,Carla R. Mancari,2008 Come take a journey through the unknown to the known presence of God Oneness Decipher God s language and intent The lessons prayer practices and soul explanations contained in this volume will take you on the ride of your life if you open yourself to them In one convenient text more than two hundred topics assist you in the understanding realization and recognition of inner truth Grasp the subtleties of rising vibrating energies within an awakened consciousness yours The Lessons is for the truth seeker inside you As you read and study the Christ centered spiritual principles within you will come to understand how they relate to this world and beyond *Chinul* Hee-Sung Keel,2012 The Buddhist master Chinul 1158 1210 is regarded as one of the greatest Son Zen monks in Korea In this penetrating analysis of Chinul s writings about Son the esoteric world of the Buddhist meditation experience becomes more accessible to readers **Heroes, Sages & Madmen** A. Roy Horn,2009-08-12 Heroes Sages and Madmen is not a book for everyone but its potent message is about

everyone It reveals a direct and honest no nonsense revelation for spiritual aspirants who with courage heroism and sincerity are ready to go beyond the limitations of popular religion academic philosophy physical exercise yoga and mental meditation It is a revealing new fresh and amazing look into the four major traditional Paths of Enlightenment It takes you where very few will go It takes you into the midst of the personal attainments blisses challenges pitfalls and dangers of spiritual practices And it takes you into the consciousness and personal strategies of the far reaching socially popular and pretentious pop guru The seventy nine short conversations in this book are guaranteed to convey many key secret spiritual teachings of the past These secret spiritual teachings are traditionally known only by true and ripe spiritual Heroes and authentic Sages Saints and Yogis Within these pages you can discover what causes the social bondage personal dissatisfaction and the failing habitual struggles for inner Happiness and Peace In the midst of the enigma and quagmire of ordinary thinking and analytical minds the author reveals and restates many ancient esoteric secrets of spirituality And most importantly the author shows how you can find a way out of your spiritual social and personal dilemmas In the questions and answers in these conversations many universal truths are delineated from major philosophies religions and spiritual practices and then their apparent differences are explored summed up and reconciled The questions and answers in this book originated from dozens of sincere spiritual aspirants from group sessions e mails personal notes formal letters telephone conversations and one on one sessions since the early 1980s Each question and answer is paraphrased by the author The information knowledge and wisdom in this book have been distilled directly from personal experience from a lifetime of spiritual study and practices The questions and answers are direct and sometimes surprising At other times the authors direct answers may challenge the spiritual assumptions of many neophyte and mature spiritual aspirants The purpose of each answer was to directly serve the sincere spiritual aspirants spiritual development and awakening beyond their popular religious academic philosophical and social belief assumptions In addition popular misunderstandings surrounding classical spiritual teachings and their four major traditional Paths of Enlightenment and practice of yoga are described evaluated and discussed in depth And lastly the thinking analytical meditation methods of popular spiritual movements in the West European cultures are considered in contrast to the contemplative meditations of the great Sages Saints and Yogis of the classical East Non European cultures Unfortunately the English language does not lend itself to explain and define the metaphysical principles and concepts of contemplative spirituality Contemporary English is predominately a language of definitions names forms and objects as demonstrated in English as used throughout the material world for business and commerce Other languages such as Sanskrit Pali Tamil and Hebrew are spoken and written to understand and verbally communicate both the dual physical world of objects and the multidimensional transcendental spiritual world beyond social psychology and formulative physics For this reason the author has modified many spelling grammar and syntax rules to emphasize and endeavor to explain contemplative concepts that cannot be explained by academic English Therefore you may discover that many sections may contain

imperfect spelling grammar and syntax that are ordinarily absent from professionally produced books To assure the authors metaphysical meani
