By closely examining primary sources the book reveals the reciprocal relationship between what we wear and the societies we inhabit The book progresses through various chapters each focusing on a specific historical period or movement to provide a holistic view of the complex interplay between fashion social change and cultural identity The ideas culminate in a concluding section that synthesizes the key findings highlighting recurring patterns and offering insight into the ongoing evolution of fashion and its relationship to contemporary social and gender issues *The Young Woman's Journal* ,1889
