Johann Sleidan and the Protestant Vision of History

Alexandra Kess,2008 Johann Sleidan 1506 1556 was the author of the first great history of the Protestant movement and did much to influence how it was perceived by both Catholics and Protestants In this new study his life and works are comprehensively analysed for the first time exploring his roles as both diplomat and historian In so doing much is revealed about how many moderate statesmen and scholars sought to bridge the growing confessional divide and promote coexistence and how Protestantism began to search for and manufacture its own history independent of that espoused by the Catholic Church Following these twin themes this book offers a fascinating and timely look at an influential figure of the Reformation

The Reformation Lewis William Spitz,1997 Comprising 13 studies relating to the impact of the Reformation in the 16th and 17th centuries this volume examines the development of education the the wider understanding of history as past actuality and its interpretation The articles within the book investigate the concern with education and the meaning of history in the age of the Renaissance and Reformation Such concern for education and history was not surpassed until the 19th and 20th centuries and so these articles also seek to explore the impact of the Reformation on education and history in the late 20th century

Riches and Reform Bess Rhodes,2019-08-26 The Scottish Reformation is often presumed to have had little economic impact Traditionally scholars maintained that Scotland s late medieval church gradually secularised its estates and that the religious changes of 1560 barely disrupted an ongoing trend In Riches and Reform Bess Rhodes challenges this assumption with a study of church finance in Scotland s religious capital of St Andrews a place once regarded as the cheif and mother citie of the Realme Drawing on largely unpublished charters rentals and account books Riches and Reform argues that in St Andrews the Reformation triggered a rapid large scale and ultimately ruinous redistribution of ecclesiastical wealth

Communal assets built up over generations were suddenly dispersed through a combination of official policies individual opportunism and a crisis in local administration leading the post Reformation churches and city of St Andrews into povert and decay
