**The God Effect is Real** Sujith Ittan,2025-07-14 Something is really wrong with our reality It appears that our minds are being manipulated Synchronicities and the collective unconscious are clues about the mind manipulation mechanism This mechanism is the God effect according to the author The God effect implies that there is an intelligent entity controlling our minds Who is this intelligent entity manipulating our minds A God must be responsible for the God effect How exactly is this God manipulating our minds in this reality that is based on the principles of materialism that we know so well through our sciences We are unable to account for the God effect within the

paradigm of materialism Are we in a reality based on idealism where consciousness is fundamental and an intelligent God exists in this context Or are we living inside a computer simulation What is the nature of our minds In order to account for God we have to question our understanding of our reality and we have to ask if we are truly in control of our minds thoughts and actions This is a gist of the God mind and reality problem that the author tries to discuss in this book In his first book the author wondered if a simulation accounts for the God effect In this book he wonders if idealism with consciousness first principles and an intelligent God solves the problem
