How to improve EU's conflict prevention activities to achieve longterm impact?

IECEU – Improving the Effectiveness of Capabilities in EU conflict prevention • 1 May 2015 – 31 January 2018 • HORIZON2020

This project has received funding from EU Framework Programme for Research and Innovation HORIZON 2020 under grant agreement no 653371

Why IECEU?

Conflicts and crisis devastate states and leave behind broken societies, broken governmental structures, civilian victims and damages the capacity for future economic and human development. The European Union (EU) is facing increasing number of challenges, including fast geopolitical changes, growing impact of conflict on civilians, globalized impact of local conflicts, technological hazards, and budgetary constraints. Moreover, the growing potential for radicalized individuals to create large security threats and transnational criminality further complicates the security landscape of the EU CSDP missions and operations. Due to global interconnectedness, the repercussions of the conflicts taking place outside of Europe can also be felt within the EU leading to possible societal and security challenges. It is a key issue for the EU how to improve its conflict intervention capabilities and create more enduring impact on the ground using its limited resources more effectively. Also Finland, as an EU member state, is committed to contribute to EU's crisis management as a part of EU's Common Security and Defence Policy (CSDP). Crisis management is considered as an integral part of Finland's foreign and security policy (Ministry of Foreign Affairs, 2009).

To enhance EU's conflict response capabilities, the EU launched EU Framework Programme for Research and Innovation H2020 under the topic Border and External Security (BES-2014). This led to the development of IECEU project proposal and, after its approval by the European Commission, to implementation of the IECEU –project with strong Consortium (11 organisations from seven different European countries). Laurea, a member of FUAS, acts as Coordinator for the IECEU and is responsible of Work Package (WP) 5 which aims to develop New Media based Online Application (NMLA). The developed NMLA will collect and illustrate the key results and findings from the case study analyses.
