The English Warrior from Earliest Times to 1066 Stephen Pollington,1996 Covers all aspects of battlecraft for the period *Architects and Intellectual Culture in Post-Restoration England* Matthew Walker,2017-10-13 Architects Builders and Intellectual Culture in Restoration England charts the moment when well educated well resourced English intellectuals first became interested in classical architecture in substantial numbers This occurred after the Restoration of

the Monarchy in 1660 and involved people such as John Evelyn Robert Hooke Sir Christopher Wren and Roger North Matthew Walker explores how these figures treated architecture as a subject of intellectual enquiry either as writers as designers of buildings or as both In four substantial chapters it looks at how the architect was defined as a major intellectual figure how architects acquired material that allowed them to define themselves as intellectually competent architects how intellectual writers in the period handled knowledge of ancient architecture in their writing and how the design process in architecture was conceived of in theoretical writing at the time In all Walker shows that the key to understanding English architectural culture at the time is to understand how architecture was handled as knowledge and how architects were conceived of as collectors and producers of such knowledge He also makes the claim that architecture was treated as an extremely serious and important area of intellectual enquiry the result of which was that by the turn of the eighteenth century architects and architectural writers could count themselves amongst England s intellectual and cultural elite

An Introduction to Early English Law Bill Griffiths,1995 Much of Anglo Saxon life followed a traditional pattern of custom and of dependence on kin groups for land support and security The Viking incursions of the ninth century and the reconquest of the north that followed both disturbed this pattern and led to a new emphasis on centralized power and law with royal and ecclesiastical officials prominent as arbitrators and settlers of disputes The diversity and development of early English law is sampled here by selecting several law codes to be read in translation that of Ethelbert of Kent being the first to be issued in England Alfred the Great s the most clearly thought out of all and short codes from the reigns of Edmund and Ethelred the Unready

Anglo-Saxon Remedies, Charms, and Prayers from British Library Ms Harley 585: Commentary and bibliography Edward Pettit,2001 Pettit a specialist in English language and literature before 1525 assumes that readers

Anglo-Saxon Attitudes John Anthony Hilton,2006 This is not a book about the Anglo Saxons but a book about books about Anglo Saxons It describes the academic discipline of Anglo Saxonism the methods of study used the underlying assumptions and the uses to which it has been put Methods and motives have changed over time but right from the start there have been the constant themes of Anglo Saxon democracy and the rights of the freeborn Englishman They have given rise to ideas and perceptions that have greatly influenced the development of English society and political history *The Fudges in England* Thomas Moore,1835
