Pathways Of Memory Power:

Pathways of Memory and Power Thomas Alan Abercrombie,1998 Pathways of Memory and Power crosses the disciplinary boundary where anthropology and history meet exploring the cultural frontier of the colonial and postcolonial Andes Thomas A Abercrombie uses his fieldwork in the Aymara community of Santa Barbara de Culca Bolivia as a starting point for his ambitious examination of the relations between European forms of historical consciousness and indigenous Andean ways of understanding the past Writing in an inviting first person narrative style Abercrombie confronts the ethics of fieldwork by comparing ethnographic experience to the power laden contexts that produce historical sources Making clear the early and deep intermingling of practices and world views among Spaniards and Andeans Christians and non Christians Abercrombie critiques both the romanticist tendency to regard Andean culture as still separate from and resistant to European influences and the melodramatic view that all indigenous practices have been obliterated by colonial and national elites He challenges prejudices that from colonial days to the present have seen Andean historical knowledge only in mythic narratives or narratives of personal experience Bringing an ethnographer s approach to historiography he shows how complex Andean rituals that hybridize European and indigenous traditions such as libation dedications and llama sacrifices held on saints day festivals are in fact potent evidence of social memory in the community [Hacking Memory Systems](#)
