

CULTURAL IDENTITY

Cultural identity is a shared sense of identity within a cultural group. It is often related to the culture's religion, nationality and ethnicity, gender norms, beliefs, and traditions.

DEFINITION

Cultural identity refers to the shared beliefs, norms, values, and practices that define a group of individuals, often linked by ethnicity, nationality, or religion. This identity shapes individuals' perceptions of themselves and their relationship to the world, influencing their behaviors, attitudes, and interactions with others.

EXAMPLES

Zulu Identity: Defined by their rich oral history, traditional music and dance like 'Indlamu', the Zulu cultural identity is a significant ethno-cultural identity within South Africa.

Japanese Identity: Japanese cultural identity is defined by a deep respect for harmony, hierarchy, and the blending of ancient traditions with modern technology.

Cultural Identity, on a Daily Basis Lisette A. García,2001 The current series of studies set out to investigate the relationship between cultural membership an individual s self concept and preferences particularly in regard to her or his collective identity It was found that culture effected preference patterns in two ways First consistent with the Kim and Markus s 2000 findings when a link between the object of choice and the individual is made explicit culture effected the type of pencil choice an individual made In this situation participants from individualistic cultures tended to make a unique pencil choice while participants from collectivistic cultures did not Secondly culture also appears to have moderated the effects of the in group out group distinction on preference patterns when no link between individual and the object of choice existed This is exemplified by the fact that only the choice patterns of the participants from the collectivistic culture type varied as a function of whether the choice had been offered by someone sharing their culture type or not The implications of these results for current models of cultural preference patterns and collective identity are discussed
