demisexual and transgender and gender diverse people If all we ever hear about the experiences of minoritized people is pain we diminish the strength of these communities and the richness of their humanity When we expand our view to include the positive we reclaim humanity not to mention strengthen our science by developing theories and conducting research that address the incredible range of human experience around gender and sexuality The 70th Annual Nebraska Symposium on Motivation focused on understanding resiliency joy pleasure and well being in women queer folks and gender diverse people In bringing together a diverse international and interdisciplinary group of scholars and scientists we created a space to explore joy to break with narratives of deficiency and honor wellbeing with the same scientific vigor and rigor as we give to pain The chapters of this volume represent this effort all centered on the question What would it look like if your field of study the study of gender and sexuality truly centered wellbeing and resilience as the foundation of theory and research
