*Annals of the History and Philosophy of Biology* 10/2005 , 2006 The name DGGTB Deutsche Gesellschaft f r Geschichte und Theorie der Biologie German Society for the History and Theory of Biology reflects recent history as well as German tradition The Society is a relatively late addition to a series of German societies of science and medicine that began with the Deutsche Gesellschaft f r Geschichte der Medizin und der Naturwissenschaften founded in 1910 by Leipzig University s Karl Sudhoff 1853 1938 who wrote We want to establish a German society in order to gather German speaking historians together in our special disciplines so that they form the core of an international society Yet Sudhoff at this time of burgeoning academic internationalism was quite willing to accommodate the wishes of a number of founding members and drop the word German in the title of the Society and have it merge with an international society The founding and naming of the Society at that time derived from a specific set of historical circumstances and the same was true some 80 years later when in 1991 in the wake of German reunification the Deutsche Gesellschaft f r Geschichte und Theorie der Biologie was founded From the start the Society has been committed to bringing studies in the history and philosophy of biology to a wide audience using for this purpose its Jahrbuch f r Geschichte und Theorie der Biologie Parallel to the Jahrbuch the Verhandlungen zur Geschichte und Theorie der Biologie has become the by now traditional medium for the publication of papers delivered at the Society s
