## Long Lankin Gallerys:

Long Lankin John Banville,1984      **Visions of Alterity** Elke D'hoker,2021-11-15 Visions of Alterity Representation in the Works of John Banville offers detailed and original readings of the work of the Irish author John Banville one of the foremost figures in contemporary European literature It investigates one of the fundamental concerns of Banville s novels mediating the gap between subject and object or self and world in representation By drawing on the rich history of the problem of representation in literature philosophy and literary theory this study provides a thorough insight into the rich philosophical and intertextual dimension of Banville s fiction In close textual analyses of Banville s most important novels it maps out a thematic development that moves from an interest in the epistemological and aesthetic representation of the world in scientific theories over a concern with the ethical dimension of representations to an exploration of self representation and identity What remains constant throughout these different perspectives is the disruption of representations by brief but haunting glimpses of otherness In tracing these different visions of alterity in Banville s solipsistic literary world this study offers a better understanding of his insistent and thought provoking exploration of what it means to be human      The Supreme Fictions of John Banville Joseph McMinn,1999 This work offers a critical commentary on the range of John Banville s fiction including the plays and views that fiction in the contexts of contemporary critical theory particularly those of postmodernism and feminism It argues that Banville s work is deeply influenced by romantic and modernist mythologies of the creative imagination especially those expressed by Coleridge and Wallace Stevens Banville s interest in systems of knowledge and forms of representation is a major issue in the study and McMinn investigates his use of paintings as metaphors      **John Banville** Rüdiger Imhof,1997 Newly enlarged to take into account subsequent statements by John Banville and to cover new novels this book is the definitive work that places the author in the vanguard of post war Irish writers      **Irish University Review** ,2006 A journal of Irish studies      **John Banville** Joseph McMinn,1991 A study of the complete work of John Banville up to and including *The Book of Evidence* The book emphasises the imaginative strategies and patterns of Banville s fiction which contains many elements of both modernist and post modernist writing and suggests its position in modern literature      **Reading the Future** Mike Murphy,2000 Who are the Irish writers working today who will be read in one hundr ed year s time That was the question that RTE put to a panel of scholars editors and others The result is a list of writers each of whom will have a dialogue with Mike Murphy for a forthcoming television and radio series reading the future      *John Banville* Neil Murphy,2018-05-18 John Banville offers a close analysis of most of Banville s major novels as well as the Quirke crime novels he has written under the pseudonym Benjamin Black and his dramatic adaptations of Heinrich von Kleist s plays From the beginning Banville s work has been marked both by the presence of a complex embedded discourse about the significance of art and by a concurrent self conscious obsession with its own status as art His novels perpetually reveal an overt fascination with the visual arts in particular and with the aesthetic principle of literature

as art This study argues that as a whole Banville's work presents an elaborate and richly textured coded account of his relationship with art and with the self-referential fictional world that his novels have conjured It is from this critical context that John Banville's central argument is derived This book asserts that Banville's fiction can be viewed both as an extended interrogation into the meaning and status of art as well as itself being a representative of the type of art that is admired in the pages of the novels As such it also represents an extremely sophisticated enactment of the novel form that goes beyond the self-reflexivity of late twentieth-century fiction to chart new developments in the literary arts The book's critical process involves several specific reference points Firstly Banville's own theoretical statements about art in interviews essays reviews and journalistic writing over the past 40 years are synthesized into a coherent interpretation of the author's artistic vision which is thereafter used as a conceptual touchstone when considering his major works of fiction This is done in conjunction with investigating specific theoretical perspectives about the relationship between literature and art by critics such as Denis Donoghue and Susan Sontag and by philosophers of art Graham Gordon Etienne Gilson Peter Lamarque and Susanne Langer

*John Banville* Ingo Berensmeyer, 2000      **Contemporary Authors** Scot Peacock, 2002-02 In response to the escalating need for up-to-date information on writers Contemporary Authors New Revision Series brings researchers the most recent data on the world's most popular authors These exciting and unique author profiles are essential to your holdings because sketches are entirely revised and up-to-date and completely replace the original Contemporary Authors entries For your convenience a soft cover cumulative index is sent biannually While Gale strives to replicate print content some content may not be available due to rights restrictions Call your Sales Rep for details      **The Quest for God in the Novels of John Banville, 1973-2005** Brendan McNamee, 2006 John Banville's protagonists long for a sense of completion that neither their own psyches nor the world can satisfy The themes in Banville's work can be seen to form a cultural and psychic bridge between mysticism and postmodernism portraying human consciousness in a bind of forever being trapped in language

**John Banville** Dr. John Kenny, 2009 John Banville is an accessible yet detailed study that brings to the surface many of the hidden depths of one of the major writers of contemporary Irish and world fiction It mediates between two existing kinds of critical work on Banville novel by novel introductions and specialised academic analyses While it approaches some of Banville s works individually its discussions are arranged thematically thus demonstrating the overall patterns in his oeuvre and in his literary thinking With a close eye on chronology the book begins by establishing the intellectual and cultural contexts of the oeuvre and its reception then provides readings of Banville s Irish themes his crucial theories of the Imagination his thematic preoccupation with morality and immorality his idiosyncratic devotion to a self reflexive art Work of all Banville s periods is covered from his first book Long Lankin 1970 to his Man Booker winning novel The Sea 2005 and his recent popular fiction written under a pseudonym Rather than incorporating the frameworks of the existing Banville criticism one of this book s major benefits is that it allows the author to speak for himself at all stages by referring to all his principal statements on his art and worldview The discussions here are all attentive to those who may be in the early stages of familiarity with Banville so that the general application of ideas and arguments can be understood without firsthand or detailed knowledge of the works under discussion Those who are well acquainted with the Banville oeuvre will also find new aspects of emphasis and suggestion A number of important items from Banville s career as a literary essayist and reviewer are used in the chapters and the book is thus a good starting point for readers wishing to further develop their interest

Mirrors and Holographic Labyrinths Laura Izarra (PhD.), 1999 This important new study is aimed at the primary question of a new synthesis proposed by John Banville the contemporary Irish writer who foresees the end of postmodernism and the beginning of a new ism or synthesis in art Truth is arbitrary reality is multifarious language is not a clear lens The analysis of his nine novels is an open dialogue with other fields of knowledge with the critics of his work and contemporary criticism following the writer s reflections upon the different systems of representation as metafiction science and the perception of visual arts The focus is on the interactive process between the observer and the observed in the construction of meanings The belief that literature is a social practice and literary texts must be analyzed within their contexts permeates this work

**British and Irish Novelists Since 1960** Merritt Moseley, 2003 Essays on British and Irish novelists discusses the combination of desperation and avant gardism bestsellers masterpieces competing technologies hyper fiction the future of the novel recent changes in British publishing and the increase in writings by celebrity authors **John Banville** Derek Hand, 2002 **Books Ireland** , 1994 *Whitaker's Cumulative Book List* , 1985 **Irish Publishing Record** , 1984
