**Bulletin** Institut national genevois, 1853 *Diaries Real and Fictional in Twentieth-Century French Writing* Sam Ferguson, 2018-03-16 This volume is the first study of the diary in French writing across the twentieth century as a genre which includes both fictional and non fictional works From the 1880s it became apparent to writers in France that their diaries a supposedly private form of writing would probably come to be published strongly affecting the way their readers viewed their other published works and their very persona as an author More than any other Andr Gide embraced the literary potential of the diary the first part of this book follows his experimentation with the diary in the fictional works *Les Cahiers d Andr Walter* 1891 and *Paludes* 1895 in his diary of the composition of his great novel *Le Journal des faux monnayeurs* 1926 and in his monumental *Journal* 1889 1939 1939 The second part follows developments in diary writing after the Second World War inflected by radical changes in attitudes towards the writing subject Raymond Queneau s works published under the pseudonym of Sally Mara 1947 1962 used the diary playfully at a time when the writing subject was condemned by the literary avant garde Roland Barthes s experiments with the diary 1977 1979 took it to the extremes of its formal possibilities at the point of a return of the writing subject Annie Ernaux s published diaries 1993 2011 demonstrate the role of the diary in the modern field of life writing Throughout the century the diary has repeatedly been used to construct an oeuvre and author but also to call these fundamental literary concepts into question

**Roland Barthes at the Collège de France** Lucy O'Meara, 2012-01-01 Roland Barthes at the Collège de France studies the four lecture courses given by Roland Barthes in Paris between 1977 and 1980 placing Barthes s teaching within institutional intellectual and personal contexts Theoretically wide ranging Lucy O Meara s account focuses on Barthes s pedagogical style and the insights they provide into his written works including his focus on essayism and fragmentation and the negotiation between singularity and universality Linking Barthes s strategies to broad intellectual influences from Kant and Adorno to Zen and Taoist philosophies O Meara reassesses Barthes s critical and ethical priorities in the decade before his death highlighting the vitality of his late thought

**French Readings from Roman History** Charles Colbeck, 1886 **Discourses of Mourning in Dante, Petrarch, and Proust** Jennifer Rushworth, 2016 This book brings together in a novel and exciting combination three authors who have written movingly about mourning two medieval Italian poets Dante Alighieri and Francesco Petrarca and one early twentieth century French novelist Marcel Proust Each of these authors through their respective narratives of bereavement grapples with the challenge of how to write adequately about the deeply personal and painful experience of grief In Jennifer Rushworth s analysis discourses of mourning emerge as caught between the twin conflicting demands of a comforting readable shared generality and a silent solitary respect for the uniqueness of any and every experience of loss Rushworth explores a variety of major questions in the book including what type of language is appropriate to mourning What effect does mourning have on language Why and how has the Orpheus myth been so influential on discourses of mourning across

different time periods and languages Might the form of mourning described in a text and the form of closure achieved by that same text be mutually formative and sustaining In this way discussion of the literary representation of mourning extends to embrace topics such as the medieval sin of acedia the proper name memory literary epiphanies the image of the book and the concept of writing as promise In addition to the three primary authors Rushworth draws extensively on the writings of Sigmund Freud Julia Kristeva Jacques Derrida and Roland Barthes These rich and diverse psychoanalytical and French theoretical traditions provide terminological nuance and frameworks for comparison particularly in relation to the complex term melancholia
