Paths in Heidegger's Later Thought Günter Figal, Diego D'Angelo, Tobias Keiling, Guang Yang, 2020-03-10 If one takes Heidegger at his word then his philosophy is about pursuing different paths of thought rather than defining a single set of truths This volume gathers the work of an international group of scholars to present a range of ways in which Heidegger can be read and a diversity of styles in which his thought can be continued Despite their many approaches to Heidegger their hermeneutic orientation brings these scholars together The essays span themes from the ontic to the ontological from the specific to the speculative While the volume does not aim to present a comprehensive interpretation of Heidegger's later thought it covers much of the terrain of his later thinking and presents new directions for how Heidegger should and should not be read today Scholars of Heidegger's later thought will find rich and original readings that expand considerations of Heidegger's entire oeuvre

[Subjects in Poetry](#) Daniel Brown, 2021-11-17 Daniel Brown's *Subjects in Poetry* is the first book to examine the broad and imposing topic of poetic subject matter probing both what poems are about and how that influences the way they're made It comprises one poet's attempt to plumb the nature of his art to ask how the selection of material remains a crucial yet unexplored area of poetic craft and to suggest the vast range of possible subjects for poems The book begins by venturing a novel definition of subject derived from Robert Frost's dictum that poetry constitutes an art of having something to say Brown posits that a poem can say something by expressing evoking or addressing He considers each of these ways of saying in turn first defining it and then looking at poems in which it predominates Brown next makes a wide-ranging case for the value of subjects to poems poets and the art of poetry especially at a time when many poems appear subjectless He concludes the book with practical guidance on finding subjects improving them and realizing their potential Replete with thoughtful readings of poems both classic and contemporary *Subjects in Poetry* should appeal to poets across all levels and readers interested in understanding the art and practice of poetry

An Index to Poetry and Recitations Edith Granger, 1918 *Landscape and the Spaces of Metaphor in Ancient Literary Theory and Criticism* Nancy Worman, 2015-12-30 This study explores a previously uncharted area of ancient literary theory and criticism the ancient landscapes such as the Ilissus river in Athens and Mount Helicon that generate metaphors for distinguishing styles which dovetail with ancient conceptions of metaphor as itself spatial and mobile Ancient writers most often coordinate stylistic features with country settings where authoritative performers such as Muses poets and eventually critics or theorists view appropriate and emulate their bounties for example springs flowers rivers paths These spaces of

metaphor and their elaborations provide poets and critics with a vivid means of distinguishing among styles and an influential vocabulary Together these figurative terrains shape critical and theoretical discussions in Greece and beyond Since this discourse has a remarkably wide reach the book is broad in scope ranging from archaic Greek poetry through Roman oratory and Longinus to the reception of critical imagery in Proust and Derrida

Gift of Language Alexander García Düttmann,2000-01-01 This text focuses on the relevance of the proper name in the conceptions of language and history that inform the thought of Adorno Benjamin Heidegger and Rosenzweig Their interest in the proper name is because it does not simply operate as a conventional linguistic sign A specific experience of the Jewish religious tradition Adorno Benjamin Rosenzweig and a vision of poetry resulting from the reading of Hoelderlin Heidegger lead to the idea of an absolute singularity it is a singularity that resists all conceptual identificaiton and the proper name expresses this singularity in language In this analysis history is conceived as a movement that both betrays and tends towards the absolute singularity that manifests itself in the unsayable i e in the name of God or in poetical language questions of gesture translation and melancholia and the moment of apparition in the work of art are comprehensible within Dr Düttmann s discussion which should be of interest to students of language philosophy and theology
