Student-Teacher Relationship Quality Research: Past, Present and Future, volume II Claudio Longobardi, Matteo Angelo Fabris, 2024-06-28 Since the publication of Robert Pianta's 2001 handbook on the quality of the teacher student relationship much has been accomplished and research contributions have multiplied from different authors and countries. This testifies to the richness and continuous evolution of this field of research. The quality of the teacher student relationship has been recognized as an important factor in the psychological development of students and seems to increase their adjustment to the school context. A good quality of relationship according to attachment theorists is characterized by closeness, affection, and respect. In this direction, the teacher can offer a relational context that can support the child in their learning processes and psychological development, preventing negative outcomes. The research focused on defining the salient features of this educational relationship and refining tools that could collect the perceptions of students and teachers, trying to identify the possible outcomes associated and the mechanisms involved. The Works of Jonathan Swift, D.D., and Dean of Saint Patrick's, Dublin Jonathan Swift, 1859 **The Present State of Scholarship in the History of Rhetoric** Lynée Lewis Gaillet, Winifred Bryan Horner, 2010-03-15 Through two previous editions, *The Present State of Scholarship in Historical and Contemporary Rhetoric* has not only introduced new scholars to interdisciplinary research but also become a standard research tool in a number of fields and pointed the way toward future study. Adopting research methodologies of revision and recovery, this latest edition includes all new material while still following the format of the original and is constructed around bibliographical surveys of both primary and secondary works addressing the Classical, Medieval, Renaissance, and eighteenth through twentieth century periods within the history of rhetoric. *The Present State of Scholarship in the History of Rhetoric* doesn't simply update but rather recasts study in the history of rhetoric. The authors, experienced and well-known scholars in their respective fields, redefine existing strands of rhetorical study within the periods, expand the scope of rhetorical engagement, and include additional figures and their works. The globalization and expansion of rhetoric are demonstrated in each of these parts and seen clearly in the inclusion of more female rhetors, discussions of historical and contemporary electronic resources, and examinations of rhetorical practices falling outside the academy and the traditional canon. New to this edition is a cumulative review of twentieth century rhetoric along with a thematic index designed to facilitate interdisciplinary or specialized study and scholarly research across the traditional historical periods. As programs incorporating rhetorical studies continue to expand at the university level, students and researchers are in need of up-to-date bibliographical resources. No other work matches the scope and approach of *The Present State of Scholarship in the History of Rhetoric*, which carries scholarship on rhetoric into the twenty-first century. **Journal of Education**, 1908
