Publishing, Bowker, 1999-12 A Patriotism for Today Keith W. Clements, 1986 **Perpetuating Patriotic Perceptions**
Mathew S. Hirshberg, 1993-01-30 The main point of this book is that biased perceptions of international relations are
anchored in a nation's collectively held patriotic self image and that these biased international perceptions serve to bolster
and perpetuate the patriotic beliefs upon which they are based This book explores the cognitive structures and processes
through which this occurs Theories and methods from the fields of social and cognitive psychology cultural anthropology and
communication studies are combined to create a useful framework for the analysis of international perceptions This
framework is then applied to American beliefs and perceptions in the post World War II era Hirshberg claims that an
American patriotic schema has been a long standing stable and pervasive fundamental belief system in American culture and
a cold war schema extended the patriotic schema into world affairs after World War II He argues that the American patriotic
schema is tied in an interactive fashion with ongoing perceptions of international relations Ultimately stable patriotic public
perceptions of national greatness and governmental legitimacy function to ensure a supportive and acquiescent public This
helps secure America's impressive level of political stability This book will be of broad interest to those political scientists
and psychologists who occupy the general field of political psychology *Subject Guide to Books in Print*, 1993 The
