ones to refine the debate continuing in the subject The contributors include both established scholars with a proven track record and promising newcomers to the field The volume arises from the individual research projects and sustained discussions of Women in Spanish Portuguese and Latin American Studies WiSPs an organisation that exists to promote scholarship by and about women in the field of Iberian Lusophone and Latin American Studies This volume celebrates the first seven years of WiSPs s life and presents some of the research presented under its auspices at annual conferences and study days
