

THE SILENT FORCE

Silent Force

Wilhelm Rein

Silent Force:

India and Network-Centric Warfare Kartik Bommakanti, 2025-11-14 This book analyses India's Network Centric Warfare (NCW) capabilities and how well they are integrated into the Indian armed forces especially the Indian Army. It explores primarily the technological and to a more limited extent the doctrinal and organisational issues that are related to NCW. It assesses how three technologies that are central to NCW: cyber, electronic warfare and space are being developed and integrated by the Indian armed services. In addition, it also analyses partially how the Indian armed services acquire and integrate Artificial Intelligence and Quantum Technology in specific areas and also explores the need for the Indian armed services to acquire Kinetic Energy Weapons (KEWs) and Directed Energy Weapons (DEWs) especially microwave and laser weapons. A part of the International Politics in the Age of Disruption series, the book will be indispensable for students and researchers of military studies, security studies, cyber warfare, political studies, international relations, security studies and South Asian studies.

The Laws of Human Nature R.H. Rizvi, 2025-09-30 The Laws of Human Nature: Mastering the Psychology of Influence, Power and Connection. By R. H. Rizvi. What if you could decode people's true intentions, influence outcomes and master your own emotions, all by understanding one powerful concept: human nature? In a world where relationships, power and success are governed by unspoken psychological laws, most people walk blindly through life, confused by others, manipulated in silence and overwhelmed by emotions they don't fully understand. The Laws of Human Nature is your ultimate guide to breaking free from that fog. This transformative book by R. H. Rizvi dives deep into the hidden forces that drive human behavior, influence and connection. Drawing from psychology, philosophy, history and real-world observation, Rizvi reveals 15 essential laws that shape how we think, act and relate to one another. Inside This Book You Will Discover: Why people wear masks and how to see behind them; How envy and insecurity silently sabotage relationships; The psychological tools master influencers use to gain trust and control; The subtle signs of manipulation and how to protect yourself; How to build authentic power without deception or force; Why people resist change and how to overcome that resistance in yourself and others; The secrets of emotional intelligence that drive true leadership and connection; Whether you want to excel in leadership, navigate relationships with confidence or simply understand yourself and others better, this book will give you the clarity, power and insight to do it. Perfect For Readers Who Are Fascinated by psychology, influence and human behavior; Struggling with manipulation, toxic people or emotional burnout; Leaders, entrepreneurs, negotiators or anyone in a position of power; On a personal growth journey and seeking emotional mastery. Fans of Robert Greene, Jordan Peterson or Malcolm Gladwell. Why This Book Stands Out: Unlike typical self-help books that offer surface-level advice, The Laws of Human Nature equips you with deep, timeless principles rooted in how humans really work. You'll not only understand what people do, you'll know why they do it, and more importantly, how to respond strategically and compassionately. Get ready to master the rules everyone else is playing by, often without realizing it. Unlock the power of
