Lesson

Add whole numbers using the
written method of column addition

We can use a formal written method for adding large numbers together.
It is called column addition because the numbers are lined up underneath
each other according to the place value columns.

We add the digits in each column
starting from the right-hand side.

We can only write a single digit in the
answer box of each place value column,
so if the total is more than one we have
to 'carry over' to the next column.

When we 'carry over' we have to write it
outside the grid when adding the digits in
the next column.

	thousands	hundreds	tens	ones	
	3	5	6	2	8
+		7	9	8	6
	4	3	6	1	4
	1	1	1	1
