On Enlightenment:

On Enlightenment David Stove, 2013-09-05 He advocates a conservative go slow approach to change pointing out that today's social structures are so large and complex that any widespread social reform will have innumerable unforeseen consequences For example the welfare state may diminish individual initiative The use of pesticides may increase the food supply while polluting the water supply the popularizing of university education may lead to a decline in academic standards Since government has a virtual monopoly on large scale change It follows in Stove's view that its powers must be limited in order to prevent large scale damage instead he argues that reforms when they are to be made at all must be realistic local necessary and never coercive **BOOK JACKET**

The Enlightenment's Animals Nathaniel Wolloch, 2025-10-01 In *The Enlightenment's Animals* Nathaniel Wolloch takes a broad view of changing conceptions of animals in European culture during the long eighteenth century Combining discussions of intellectual history the history of science the history of historiography the history of economic thought and not least art history this book describes how animals were discussed and conceived in different intellectual and artistic contexts underwent a dramatic shift during this period While in the seventeenth century and the first half of the eighteenth century the main focus was on the sensory and cognitive characteristics of animals during the late Enlightenment a new outlook emerged emphasizing their conception as economic resources Focusing particularly on seventeenth century Dutch culture and on the Scottish Enlightenment Wolloch discusses developments in other countries as well presenting a new look at a topic of increasing importance in modern scholarship

Mystical Realist Hee-Jin Kim, 2012-06-25 Eihei Dogen the founder of the Japanese branch of the Soto Zen Buddhist school is considered one of the world's most remarkable religious philosophers *Eihei Dogen Mystical Realist* is a comprehensive introduction to the genius of this brilliant thinker This thirteenth century figure has much to teach us all and the questions that drove him have always been at the heart of Buddhist practice At the age of seven in 1207 Dogen lost his mother who at her death earnestly asked him to become a monk to seek the truth of Buddhism We are told that in the midst of profound grief Dogen experienced the impermanence of all things as he watched the incense smoke ascending at his mother's funeral service This left an indelible impression upon the young Dogen later he would emphasize time and again the intimate

relationship between the desire for enlightenment and the awareness of impermanence His way of life would not be a sentimental flight from but a compassionate understanding of the intolerable reality of existence At age 13 Dogen received ordination at Mt Hiei And yet a question arose As I study both the exoteric and the esoteric schools of Buddhism they maintain that human beings are endowed with Dharma nature by birth If this is the case why did the buddhas of all ages undoubtedly in possession of enlightenment find it necessary to seek enlightenment and engage in spiritual practice When it became clear that no one on Mt Hiei could give a satisfactory answer to this spiritual problem he sought elsewhere eventually making the treacherous journey to China This was the true beginning of a life of relentless questioning practice and teaching an immensely inspiring contribution to the Buddhadharma As you might imagine a book as ambitious as Eihei Dogen Mystical Realist has to be both academically rigorous and eminently readable to succeed Professor Hee Jim Kim's work is indeed both
