On Being Human Jerome Kagan, 2016-01-01 Kagan ponders a series of important nodes of debate while challenging us to examine what we know and why we know it Most critically he presents an elegant argument for functions of mind that cannot be replaced with sentences about brains while acknowledging that mind emerges from brain activity He relies on the evidence to argue that thoughts and emotions are distinct from their biological and genetic bases In separate chapters he deals with the meaning of words kinds of knowing the powerful influence of social class the functions of education emotion morality and other issues And without fail he sheds light on these ideas while remaining honest to their complexity Publisher s description

Assaulted Personhood Craig C. Malbon, 2020-12-14 In 21st century America personhood is under daily assault sometimes with dire consequences Scientist ethicist and ordained minister Craig C Malbon encourages the reader to consider such assaults on personhood endured by victims of abortion ageism Alzheimer s disease drug addiction mental and physical disabilities gender gender orientation racism sexual preference identity politics and our will to power over the other In exploring personhood status Malbon poses difficult questions for us Is personhood assigned as all or nothing or is it a sliding scale based upon criteria arbitrarily aimed at our vulnerabilities Does the voiceless embryo and fetus have advocates who can speak to the moral question of abortion Is the personhood of an economically insecure pregnant woman degraded to the point where lack of access to early termination of pregnancy results in coercive childbearing Does being a member of the LGBTQI community target one for assaults on personhood to the extreme of being killed In delving into the biology and psychology of assaults of self upon the other Malbon sees powerful linkages of everyday assaults on personhood to darker profound original sins that are foundational to the rise of the American empire i e assaults on the indigenous Native Americans and assaults derivative to the institution of slavery upon Africans African Americans and their descendants

the background to the theological judgments she or he makes and therefore provides valuable insight into what she or he has written. Experiences in the theologian's life determine how she or he forms and communicates the ideas that the experiences have given rise to. Indeed, theologians profoundly connect with readers as they write theology as an expression of their experiences of faith. Therefore, this book contends that there is a necessary connection to be made between the theologian as a person and the theology that emerges out of her or his unique biography. Indeed, it will be argued that theology is born out of the lived encounters of the theologian that develop into the kind of personal convictions, passions, concerns, questions, and a motivation to connect with others that is evident in her or his writing. Consequently, theology and theologian are inseparable.
