The Existentialist Legacy and Other Essays on Philosophy and Religion James Woelfel, 2006-04-05 The Existentialist Legacy and Other Essays on Philosophy and Religion is a collection of ten essays on topics in the two primary areas of the author's research and teaching: existentialist philosophy and the philosophy of religion. The common thread running through the essays is a way of approaching issues in philosophy and religion that reflects the author's career-long indebtedness to the methods and emphases of the existentialist movement in philosophy. Among the essay topics are: studies of the existentialist legacy in the context of the contemporary situation in the sciences and humanities; Iris Murdoch's sympathetic but narrowly Sartrean interpretation of existentialism; the congeniality of existentialism and feminism; the problem with high existentialist doctrines of freedom; three philosophical autobiographies; a new look at Pascal's Wager as a description of the situation of the modern believer; theistic evolutionism including a Christian existentialism; and Walter Kaufmann as an existentialist manqué in his heretical approach to religion.
