Cumulative Book Index, 1999 *Tolkien's Shorter Works* Margaret Hiley, Frank Weinreich, 2008 Tolkien's Middle earth and its legendarium have drawn extensive scholarly attention But there is more to Tolkien than the history and legends of Middle earth and there has hitherto been a certain lack of academic criticism focused primarily on his shorter fictional works Farmer Giles of Ham Smith of Wootton Major Roverandom and his poetry Although scholarly evaluations of these works exist they often deal with the shorter texts more as an afterthought as footnotes to the major texts rather than as demanding attention in their own right This dearth of studies suggests that it is time for a closer look at Tolkien's Shorter Works The current volume collects the findings of a joint conference of Walking Tree Publishers who co organised this event in order to celebrate their tenth anniversary and the German Tolkien Society at the Friedrich Schiller University in Jena Germany in 2007 Various interesting aspects details and connections are unearthed which are likely to broaden not simply the understanding of Tolkien's Shorter Works but also of the author's overall fictional work as well as the man and author J R R Tolkien himself
