Math Comprehension 2nd Grade:

Second Grade Geometry Success (Sylvan Workbooks) Sylvan Learning, 2011-01-18 A solid foundation of basic geometry skills is essential for early success in math. Children who have a solid understanding of two and three dimensional shapes, symmetry, patterns, and location concepts will be ready for the challenges of mathematics as they advance to more complex topics. The activities in this workbook are designed to help your children catch up, keep up, and get ahead. Best of all, they'll have lots of fun doing it. Some of the great features you'll find inside are Neighborhood Walk. After practicing shapes, children walk through the house yard or neighborhood finding things shaped like circles, rectangles, triangles, and octagons. Later they look for spheres, rectangular prisms, cylinders, and cones. Robot Repair. Children draw a line from each robot head to a correct body or from each robot to its missing parts by distinguishing the shapes. Farm Fences. Farmer Green wants to put fences around all of the animal areas of his farm. Children calculate the perimeter of the areas to determine how much fencing material Farmer Green needs to buy. Dance Floor. Robin and Roscoe are looking for a light up dance floor for their dance party. All of the dance floors have the same area, so children help determine the one with the largest perimeter. Plus Game Pieces. The workbook includes pentomino pieces, pattern blocks, and tangram pieces for children to cut out and use with games, make patterns, and solve tangram puzzles. Give your child's confidence in math a boost with **2nd Grade Geometry Success**.

Curriculum-based Assessment Carroll J. Jones, 2008 Although curriculum based assessment (CBA) has been on the horizon for a number of years, there has been a need for a practical, classroom based approach for its implementation. This second edition is a major revision and update that offers practical and specific methods for developing and using CBAs in an educational setting. It gives educators a highly specific, step by step approach to building CBAs in the area of reading, word recognition, reading comprehension, content reading, mathematics, and written expression. Each chapter offers detailed, easy to read and easy to follow instructions for the assessment construction process. To further clarify the process, extensive examples are given in table format. A unique feature of the text is the manner in which the author illustrates the principles of CBA by providing a case study on one student, which is referred to in each chapter. Its formative assessment approach gives the teacher additional, detailed information about student's OCO performance, which in turn should guide the type of instruction designed and implemented, ultimately leading to higher performance on summative outcome measures. Additionally, detailed information is provided on subject area CBA construction, the creation and implementation of a district wide CBA system for response to intervention, and how to use IDEA's response to intervention in student evaluation.

Second Grade Success with Sight Words (Sylvan Workbooks) Sylvan Learning, 2011-03-08 A solid foundation of reading skills is essential for children to become successful readers. Learning basic sight words is a critical step in building that foundation. The activities in this workbook are designed to help your child catch up, keep up, and get ahead, and best of all, to have lots of fun doing it. Here are some of the great features you'll find inside: I'm Thinking of a Word. Can you find the mystery word? Children read

clues and cross out words that don't match the clues Then they circle and write the mystery word Spell Check Children circle misspelled words in an e-mail words about places to go and things to do and then practice writing these words correctly Fix the Dictionary Words are missing from a dictionary page Children review sight words by matching the missing words to their correct definitions Word Hunt Children enjoy this popular game hunting for sight words across and down in a jumble of letters and then writing the words they find Title Time Some books are missing a word from their titles Children write the correct noun verb or adjective to complete the book cover Give your child's confidence in reading a boost with Second Grade Success with Sight Words *Resources in Education*, 1987 **The Complete Sourcebook on Children's Software** Children's Software Review, 2001-03 5000 critical reviews of CDs videogames smart toys for ages 1 to 16 Second Grade Review Sara E.
