Dolciani,1985 **Pre-algebra** James C. Hardwick,Shirley A. McCandless,Evelyn K. Sisco,Houghton Mifflin Company,1985 **Journal for Research in Mathematics Education** ,2007 **Gender Consciousness and Privilege** Celeste M. Brody,2000 Based on the results of a two year study of three schools undergoing major organizational changes as they prepared for coeducation it promotes understanding of the role gender plays in education **Mathematics Teacher Resource Handbook** ,1993 *Equitable School Scheduling* Cheryl Hibbeln,Lori Rhodes,2024-11-10 To understand a school s values and priorities look at its schedule When schedules do not meet the instructional needs of students the result is a pipeline from PreK through grade 12 that leaks students an outcome disproportionately experienced by students of color and other marginalized student groups This practical and thoughtful guide demonstrates how school and district scheduling teams can become Architects of Equity highly effective teams who design schedules that reflect their commitment to student achievement and social emotional wellbeing Including strategies to shift collective mindsets around scheduling organize and support teaching teams and ensure fiscal responsibility in scheduling Equitable School Scheduling is a vital resource for secondary school leaders committed to dismantling systemic inequities inherent in school structures Readers will learn how to Self assess site and or district data through a deep examination of the course of study site schedule s transcripts and graduation cohort outcomes Design and implement an Equitable Core a guaranteed set of courses that all students experience as a part of a meaningful graduation Prioritize underestimated and historically underserved students in the planning of the schedule Equitable School Scheduling helps school and district administrators use scheduling as a tool to transform the leaky pipeline to graduation into a meaningful path to post secondary success for all students **El-Hi Textbooks and Serials in Print** ,2006 **The Structure of Schooling** Richard Arum,Irene R. Beattie,Karly Ford,2011 This second edition of *The Structure of Schooling* Readings in the Sociology of Education draws from classic and contemporary scholarship to examine current issues and diverse theoretical approaches to studying the effects of schooling on individuals and society This engaging reader exposes students to examples of sociological research on schools with a focus on the school as community It covers a wide range of issues including the development and application of social and cultural capital the effects of racial segregation and resource inequality on student outcomes the effects of tracking the role of gender class and race in structuring educational opportunity the effects of schooling on life course outcomes the significance of a school s

institutional environment and the sociology of school reform movements      Exploring Education Alan R. Sadovnik, Peter Cookson, Jr., Susan Semel, Ryan Coughlan, 2017-10-10 This much anticipated fifth edition of Exploring Education offers an alternative to traditional foundations texts by combining a point of view analysis with primary source readings Pre and in service teachers will find a solid introduction to the foundations disciplines history philosophy politics and sociology of education and their application to educational issues including school organization and teaching curriculum and pedagogic practices education and inequality and school reform and improvement This edition features substantive updates including additions to the discussion of neo liberal educational policy recent debates about teacher diversity updated data and research and new selections of historical and contemporary readings At a time when foundations of education are marginalized in many teacher education programs and teacher education reform pushes scripted approaches to curriculum and instruction Exploring Education helps teachers to think critically about the what and why behind the most pressing issues in contemporary education      **El-Hi Textbooks & Serials in Print, 2005** ,2005      **On the Same Track** Carol Corbett Burris, 2015-03-17 A public school principal s account of the courageous leaders who have dismantled the tracking systems in their schools in order to desegregate classrooms What would happen if a school eliminated the tracks that rank students based on their perceived intellectual abilities Would low achieving students fall behind and become frustrated Would their higher achieving peers suffer from a watered down curriculum Or is tracking itself the problem A growing body of research shows that tracking doesn t increase learning for the minority and low income students who are overrepresented in low track classrooms This de facto segregation has led many civil rights advocates to argue that tracking is turning back the clock on equal education As a principal at a New York high school Carol Corbett Burris believed that the curriculum for the best students was the best curriculum for all She helped lead a bold plan to eliminate tracking from her school and the results couldn t have been further from the doom and gloom scenarios of tracking proponents Instead there was a dramatic improvement in the achievement of all students across racial and socioeconomic divisions and a near elimination of the achievement gap Today due to those efforts International Baccalaureate English is the twelfth grade curriculum for South Side students and all students take the same challenging courses together to prepare them for college In *On the Same Track* Burris draws on her own experience on the experiences of other schools and on the latest research to make an impassioned case for detracking Not only does the practice of tracking fail to benefit lower tracked students as Burris shows but it also results in the resegregation of classrooms Furthermore she argues that many of today s popular reforms emanate from the same sort and select mentality that reinforces social stratification based on race and class *On the Same Track* is a rousing controversial and yet optimistic account of how we need to change our assumptions and policies if we are to live up to the promise of democratic public education Only by holding all students to the same high standards can we ensure that all have the same opportunity to live up to their full potential      **Supplementation, Justification and Student Understanding**
