Introduction to the Practice of Statistics David S. Moore, George P. McCabe, Bruce A. Craig, 2014-02-07. With this updated new edition, the market-leading *Introduction to the Practice of Statistics* remains unmatched in its ability to show how statisticians actually work. Its focus on data analysis and critical thinking, step-by-step pedagogy, and applications in a variety of professions and disciplines, make it exceptionally engaging to students learning core statistical ideas.

Evaluation Basics Jacqueline Kosecoff, Arlene Fink, 1982-12. Unlike their predecessors, present-day evaluators must negotiate with public and private agencies, organize and administer projects, speak to groups, write reports and budgets, as well as play the role of politician and philosopher. Additionally, they must think as ethicists when asking personal survey questions so as not to violate the privacy of the individual or contemplate random assignment, thereby potentially denying services to some. *Evaluation Basics* offers proven techniques in a how-to format with step-by-step directions and illustrations. This book will be of use to those conducting evaluations, working with someone else who does, or planning to conduct evaluations in the future.
