### **Nietzsche's Attache Case:**

**Nietzsche's Attache Case** Daniel Weissbort,1993 The poems in this new collection are taken from a verse journal for the years 1985-1990 arranged chronologically to form three sections The first considers loss and death themes which have haunted literature since the Gilgamesh epic and includes fragments of a conversation with the dead The second is concerned with the world outside which Weissbort describes as the world of dreams The third reflects on politics following the dissolution of the Soviet empire

**Nietzsche's Ethics and Critique of Morality** Miloš Agatonović,2026-01-01 The book demonstrates that Nietzsche consistently advocated an ethical standpoint that under certain conditions recommends and prescribes the affirmation of life For Nietzsche the affirmation of life is closely connected to the Dionysian Agatonović reveals how Nietzsche cites the life and culture of ancient Greeks as an example of affirmation Building upon the affirmation of life the author shows how Nietzsche criticises morality and calls for a reevaluation of ordinary value judgments This text adopts an approach that highlights naturalism in interpreting Nietzsche's philosophy Contrary to Brian Leiter's interpretation of Nietzsche's naturalism the author argues that Nietzsche's naturalism is broad which in considering different forms of life involves the use of the everyday concept of causality as it is employed in historical explanations Agatonović affirms how the concept of causality in Nietzsche depends upon the context that constitutes the totality of life which can encompass various kinds of conditions including physical and psychological as well as social and cultural phenomena norms and values as causes The reader is forced to confront how in some contexts a cause could be composed of different types of conditions and further how morals and values can be causes since they represent conditions of One of the fundamental theses of the book is that Nietzsche evaluates values and other norms by assessing the foundation of the whole of life upon which they supervene The reader finds that Nietzsche evaluates favourably above all the life and culture of ancient Greeks in the pre-classical period as well as individuals of the modern era such as Goethe and Beethoven This book appeals to students and researchers in the field of Nietzsche scholarship

**Philosophizing Madness from Nietzsche to Derrida** Angelos Evangelou,2017-08-12 Drawing connections between madness philosophy and autobiography this book addresses the question of how Nietzsche's madness might have affected his later works It also explores why continental philosophy after Nietzsche is so fascinated with madness and how it re-considers re-evaluates and re-values madness To answer these questions the book analyzes the work of three major figures in twentieth-century French philosophy who were significantly influenced by Nietzsche Bataille Foucault and Derrida examining the ways in which their responses to Nietzsche's madness determine how they understand philosophy as well as philosophy's relation to madness For these philosophers posing the question about madness renders the philosophical subject vulnerable and implicates it in a state of responsibility towards that about which it asks Out of this analysis of their engagement with the question of madness emerges a new conception of autobiographical philosophy which entails the insertion of this vulnerable subject into the philosophical work to which each of these philosophers adheres or resists in

different ways *Nietzsche and Zion* Jacob Golomb, 2018-09-05 Nietzsche's ideas were widely disseminated among and appropriated by the first Hebrew Zionist writers and leaders. It seems quite appropriate then that the first Zionist Congress was held in Basle where Nietzsche spent several years as a professor of classical philology. This coincidence gains profound significance when we see Nietzsche's impact on the first Zionist leaders and writers in Europe as well as his presence in Palestine and later in the State of Israel from the Introduction. The early Zionists were deeply concerned with the authenticity of the modern Jew qua person and with the content and direction of the reawakening Hebrew culture. Nietzsche too was propagating his highest ideal of a personal authenticity. Yet the affinities in their thought and the formative impact of Nietzsche on the first leaders and writers of the Zionist movement have attracted very little attention from intellectual historians. Indeed the antisemitic uses to which Nietzsche's thought was turned after his death have led most commentators to assume the philosopher's antipathy to Jewish aspirations. Jacob Golomb proposes a Nietzsche whose sympathies overturn such preconceptions and details for the first time how Nietzsche's philosophy inspired Zionist leaders, ideologues, and writers to create a modern Hebrew culture. Golomb cites Ahad Ha'am, Micha Josef Berdichevski, Martin Buber, Theodor Herzl, Max Nordau, and Hillel Zeitlin as examples of Zionists who dared to look into Nietzsche's abyss. This book tells us what they found.

Nietzsche, Epistemology, and Philosophy of Science B.E. Babich, 2013-03-09 Nietzsche Epistemology and Philosophy of Science is the second volume of a collection on Nietzsche and the Sciences featuring essays addressing truth, epistemology, and the philosophy of science with a substantial representation of analytically schooled Nietzsche scholars. This collection offers a dynamic articulation of the differing strengths of Anglo-American analytic and contemporary European approaches to philosophy with translations from European specialists, notably Carl Friedrich von Weizsäcker, Paul Valadier, and Walther Ch. Zimmerli. This broad collection also features a preface by Alasdair MacIntyre. Contributions explore Nietzsche's contributions to the philosophy of language and epistemology and include essays on the social history of truth and the historical and cultural analyses of Serres and Baudrillard, as well as new contributions to the philosophy of science including theological and hermeneutical approaches, history of science, the philosophy of medicine, cognitive science, and technology. GNR, 1992

*Germanic Notes*, 1992 **Nietzsche and the Sciences** Babette E. Babich, 1999 *Composing a Life* Tim McCracken, 2015-01-09 Christopher Hartley is the chair of the English department at the North Campus of Garden State University, a place he refers to as a minimum intellectual facility. Recently returned from a medical leave begun after the death of his wife Holly sixteen months earlier, he is seeking some measure of peace. As Chris prepares a brand new course called Music in Literature, he hopes the combination of the two disciplines, a pairing that has always fascinated him, will help him overcome his grief and deal with the estrangement of his daughter Ivy. Peace, however, is as elusive as music itself. As he deals with his own health problems and the possibility of a new relationship with a much younger colleague, Chris moves through a chaotic and occasionally amusing fugue in which lust, love, self-worth, redemption, and meaning interweave. This

complex novel explores how music and literature aid one man as he deals with grief considers the meaning of life and death and struggles to come to terms with his own mortality **Boston Studies in the Philosophy of Science** ,1999
