

REPRESENTING REALITY

Representing Reality

Clifford Lane

Representing Reality:

Representing Reality Bill Nichols, 1991 This book offers a conceptual overview of documentary filmmaking practice It addresses numerous social issues and how they are presented to the viewer by means of style rhetoric and narrative technique The volume poses questions about the relationship of the documentary tradition to power the body authority knowledge and our experience of history This study advances the pioneering work of Nichols s earlier book *Ideology and the Image* The rigorous discussion of modes of documentary representation the relationship between narrative and nonfiction and the representation of the body including a chapter on pornography ethnography and power give this book enormous value for the study of visual anthropology and ethnographic film The often neglected relationship between signifier and referent is the special focus of this intensive study of documentary film The concluding discussion of the representation of the body will also be of special interest to semioticians
