Politics Of Conversion:

Politics of Conversion Devendra Swarup,1986 **Political Conversion** Don Waisanen,2018-04-20 Stories of religious conversion have been told for millennia Yet many prominent figures such as Ronald Reagan Hillary Clinton and Rick Perry have also used stories of their change from one political worldview to another as a communication strategy aimed at winning the hearts and minds of the public This book is about political conversion stories in public discourse in their evolution from and interactions with religion From a historical perspective it charts the development of conversion narratives from religious contexts to their contemporary applications as specifically political messages Since these narratives continue to be used in the culture wars this book examines several related autobiographies that contributed to the use of this strategy in contemporary U S politics Each case shows how shifts during the postwar period called for conversion texts under varying guises and illustrates how and why the majority of these stories have been of conversions from the ideological left to the right Examining political conversion as a form of public persuasion Political Conversion ultimately provides insight into what these types of civic religious stories mean for democratic communication and communities

Public Confessions Rebecca L. Davis,2021-09-15 Personal reinvention is a core part of the human condition Yet in the mid twentieth century certain private religious choices became lightning rods for public outrage and debate Public Confessions reveals the controversial religious conversions that shaped modern America Rebecca L Davis explains why the new faiths of notable figures including Clare Boothe Luce Whittaker Chambers Sammy Davis Jr Marilyn Monroe Muhammad Ali Chuck Colson and others riveted the American public Unconventional religious choices charted new ways of declaring an authentic identity amid escalating Cold War fears of brainwashing and coercion Facing pressure to celebrate a specific vision of Americanism these converts variously attracted and repelled members of the American public Whether the act of changing religions was viewed as selfish reckless or even unpatriotic it provoked controversies that ultimately transformed American politics Public Confessions takes intimate history to its widest relevance and in so doing makes you see yourself in both the private and public stories it tells

The Conversion of Henri IV Michael Wolfe,1993 Paris is worth a Mass So said Henri IV on his conversion to Catholicism according to cynics and the motives behind the act have been the stuff of history ever since The Conversion of Henri IV reclaims the religious significance of this momentous event in the development of the French monarchy and early modern political culture Michael Wolfe offers an in depth account of the political diplomatic and theological dimensions of the 1593 conversion of the Protestant Henri de Navarre Where others have emphasized the ideological aspects of the conflict sparked by the conversion Wolfe situates the controversy within contemporary ideas about confessional change and practice as well as the historical traditions that defined what it meant to be French Using pamphlets sermons letters and memoranda he traces the conversion crisis as it unfolded in the minds of the king s subjects and as it affected their loyalties and actions during the last religious wars In this analysis the public response to Henri IV s conversion reveals a great deal about

contemporary notions of personal piety and the Church political ideals and the state as well as social identity and obligations Joining the history of mentalite with that of political and religious behavior Wolfe also pays close attention to the impact of military and political developments This approach helps explain the fundamental role of Henri IV s conversion in the establishment and acceptance of Bourbon absolutism in the last two centuries of the ancien regime While not denying the political importance of Henri IV s conversion this book underscores the profound religious implications of the event It puts religion back into the Wars of Religion and thereby enhances our understanding of the rise of the early modern French state

Transcommunalism John Brown Childs, 2010-06-17 How can we build long lasting communities and movements for change [The Politics of Religious Conversion](#), 2010 Religious conversion is according to this thesis an inherently political act if not by intentions by its implications Through the introduction of three new concepts in particular namely the theoretical concept of Muslimisation and the descriptive concepts of entity concepts and metareligious conversion I reveal how the transformations effected by religious conversion alter the political dynamics to the position of the convert Considering interpersonal relationships I demonstrate how there are political implications to the changes brought about by conversion I then show how issues about the authenticity of conversion also place the convert within a field of discourse where this authenticity can be politically affirmed or challenged Subsequently examining the relationship between the convert and what I call entity concepts I clarify how the dynamics of the relationship between the individual and these ideological notions also experience a change as a consequence of conversion Finally I consider how the approaches scholars take to examining religious conversion provide a political challenge as well in terms of how scholars explanations place conversion within other fields of discourse which test and critique what is understood by religious conversion which may either compliment or contradict the convert s own point of view The intention of this thesis is that it provides tools for the examination of religious conversion from a political point of view that are open for application and appraisal by other scholars of religious conversion

Conversion, Politics and Religion in England, 1580-1625 Michael C. Questier, 1996-07-13 A study of conversion and its implications during the English Reformation **Paradigms, Poetics, and Politics of Conversion** Jan N. Bremmer, Wout Jac. van Bekkum, Arie L. Molendijk, 2006 In the terms of Durheimian sociology conversion is a fait social Although they are rarely treated as a cultural phenomenon conversions can obviously be examined for the norms values and presuppositions of the cultures in which they take place Thus conversion can help us to shed light on a particular culture At the same time the term evokes a dramatic appeal that suggests a kind of suddenness although in most cases conversion implies a more gradual process of establishing and defining a new religious identity From 21-24 May 2003 the University of Groningen hosted an international conference on Cultures of Conversion The contributions have been edited in two volumes which pay special attention to the modes of language and idiom in conversion literature the meaning and sense of religious ideological discourse the variety of rhetorical tropes and the effects of the conversion narrative with allusions to religious or political

conventions and idealizations The present volume contains theoretical contributions on the theory of conversion with special attention to the rational choice theory and on the history of research into conversion It also offers stimulating case studies ranging from the late Middle Ages to present times and taken from Germany Great Britain and The Netherlands The other volume Cultures of Conversion offers in depth studies of conversion that are mainly taken from the history of India Islam and Judaism ranging from the Byzantine period to the new Muslimas of the West

The Politics of Conversion Christopher M. Clark, 1995 Spanning over two centuries of protestant missionary activity this book examines the ways in which theological social and racial themes intertwined in the relationship between the Christian majority in Prussia and the Jewish minority in its midst Making comprehensive use of the archives and publications of the various Prussian institutions and societies which set out to convert Jews to Christianity this study sheds light on a facet of Jewish German history which has been overshadowed by the ultimate tragedy of the Holocaust *The Saturday Review of Politics, Literature, Science and Art*, 1888

Pentecostalism and Politics of Conversion in India Sarbeswar Sahoo, 2018-05-03 This book studies the politics of Pentecostal conversion and anti Christian violence in India It asks why has India been experiencing increasing incidents of anti Christian violence since the 1990s Why are the Bhil Adivasis increasingly converting to Pentecostalism And what are the implications of conversion for religion within indigenous communities on the one hand and broader issues of secularism religious freedom and democratic rights on the other Drawing on extended ethnographic fieldwork amongst the Bhils of Northern India since 2006 this book asserts that ideological incompatibility and antagonism between Christian missionaries and Hindu nationalists provide only a partial explanation for anti Christian violence in India It unravels the complex interactions between different actors agents in the production of anti Christian violence and provides detailed ethnographic narratives on Pentecostal conversion Hindu nationalist politics and anti Christian violence in the largest state of India that has hitherto been dominated by upper caste Rajput Hindu tva ideology

Between Heaven and Russia Sarah Riccardi-Swartz, 2022-04-05 How is religious conversion transforming American democracy In one corner of Appalachia a group of American citizens has embraced the Russian Orthodox Church and through it Putin's New Russia Historically a minority immigrant faith in the United States Russian Orthodoxy is attracting Americans who look to Russian religion and politics for answers to Western secularism and the loss of traditional family values in the face of accelerating progressivism This ethnography highlights an intentional community of converts who are exemplary of much broader networks of Russian Orthodox converts in the United States These converts sought and found a conservatism more authentic than Christian American Republicanism and a nationalism unburdened by the broken promises of American exceptionalism Ultimately both converts and the Church that welcomes them deploy the subversive act of adopting the ideals and faith of a foreign power for larger transnational political ends Offering insights into this rarely considered religious world including its far right political roots that nourish the embrace of Putin's Russia this ethnography shows how religious conversion is tied to larger issues of social politics allegiance anti democracy and citizenship These conversions offer us a window onto both global politics and foreign affairs while also allowing us to see how particular U S communities are grappling with social transformations in the twenty first century With broad implications for our understanding of both conservative Christianity and right wing politics as well as contemporary Russian American relations this book provides insight in the growing constellations of far right conservatism While Russian Orthodox converts are more likely to form the moral minority rather than the moral majority they are an important gauge for understanding the powerful philosophical shifts occurring in the current political climate in the United States and what they might mean for the future of American values ideals and democracy

Radical Conversion
Christopher M. Duncan, 2021-07-13 Radical Conversion utilizes both analytic and normative philosophic theoretical frameworks to study the relationship between Christian Catholic conceptualizations of politics citizenship faith and religion as viewed through a quasi theological lens The work is situated in the context of the American liberal tradition and in conversation and debate with the public philosophy that attempts to sustain it and provide a rationale for its perpetuation In a single sentence the book's thesis is that for America to fully realize its authentic and unique moral and political mission and secure it into the future it will need to become both more Catholic and more catholic Concordantly that mission properly understood is nothing less than the recognition and protection of the idea of the sacredness of every individual human person and their right to flourish and realize the fullness of their particular vocation as a child of God
