Keeling,Scott T. Pollard,2020-06-04 Food is a signifier of power for both adults and children a sign of both inclusion and exclusion and of conformity and resistance Many academic disciplines from sociology to literary studies have studied food and its function as a complex social discourse and the wide variety of approaches to the topic provides multidisciplinary frames for understanding the construction and uses of food in all types of media including children s literature **Table Lands** Food in Children s Literature is a survey of food s function in children s texts showing how the sociocultural contexts of food reveal children s agency Authors Kara K Keeling and Scott T Pollard examine texts that vary from historical to contemporary noncanonical to classics and Anglo American to multicultural traditions including a variety of genres formats and audiences realism fantasy cookbooks picture books chapter books YA novels and film **Table Lands** offers a unified approach to studying food in a wide variety of texts for children Spanning nearly 150 years of children s literature Keeling and Pollard s analysis covers a selection of texts that show the omnipresence of food in children s literature and culture and how they vary in representations of race region and class due to the impact of these issues on food Furthermore they include not only classic children s books such as Winnie the Pooh but recent award winning multicultural novels as well as cookbooks and even one film Pixar s *Ratatouille* **The Creators of Winnie the Pooh** Andrew Norman,2025-03-30 In 1962 children s writer Roger Lancelyn Green coined the phrase The Golden Age of Children s Books A A Milne s two Winnie the Pooh books published in 1926 and 1928 which were so beautifully illustrated by artist and book illustrator E H Shepard fall into this category Milne was clearly motivated to compose his Winnie the Pooh stories in order to entertain his young son However Christopher Robin came to resent the fact that his father had used his real first names as the names of Pooh s owner in the books Was there a deeper reason why Milne created Winnie the Pooh Possibly yes The author had served as a soldier in the First World War and by creating Pooh and his Hundred Acre Wood he had created a world into which he could withdraw whenever he chose and thereby mitigate the post traumatic stress disorder which all military combatants suffer to a greater or lesser degree The

same applied to Shepard who also served in that conflict Having been given the Pooh books as a child I re read them as an adult and laughed just as uproariously as I had done all those years ago Up until then it had never occurred to me to enquire about their author A A Milne and about their illustrator E H Shepard I now decided that it was time to put matters right
