Politically Mad:

The Saturday Review of Politics, Literature, Science and Art, 1860

The Founding Fathers and the Politics of Character Andrew S. Trees, 2021-07-13 The American Revolution swept away old certainties and forced revolutionaries to consider what it meant to be American Andrew Trees examines four attempts to answer the question of national identity that Americans faced in the wake of the Revolution Through the writings of Thomas Jefferson John Adams Alexander Hamilton and James Madison Trees explores a complicated political world in which boundaries between the personal and the political were fluid and ill defined Melding history and literary study he shows how this unsettled landscape challenged and sometimes confounded the founders attempts to forge their own and the nation s identity Trees traces the intimately linked shaping of self and country by four men distrustful of politics and yet operating in an increasingly democratic world Jefferson sought to recast the political along the lines of friendship while Hamilton hoped that honor would provide a secure foundation for self and country Adams struggled to create a nation virtuous enough to sustain a republican government and Madison worked to establish a government based on justice Giving a new context to the founders mission Trees studies their contributions not simply as policy prescriptions but in terms of a more elusive and symbolic level of action His work illuminates the tangled relationship among rhetoric politics self and nation as well as the larger question of national identity that remains with us today

European Political History 1870-1913 Thomas Mergel, 2017-05-15 The period from 1870 to 1913 saw the emergence of modern mass politics The extension of the franchise the development of party structures and political cleavages and growing state intervention mark this period as one of substantial political change This collection brings together a selection of the most important recent research in this field

Case and His Contemporaries John Carroll, 1874

[The Awakening of Scotland](#) William Law Mathieson, 1910

Transatlantic Radicals and the Early American Republic Michael Durey, 1997 In the transatlantic world of the late eighteenth century easterly winds blew radical thought to America Thomas Paine had already arrived on these shores in 1774 and made his mark as a radical pamphleteer during the Revolution In his wake followed more than 200 other radical exiles English Dissenters Whigs and Painites Scottish lads o parts and Irish patriots who became influential newspaper writers and editors and helped change the

nature of political discourse in a young nation Michael Durey has written the first full scale analysis of these radicals evaluating the long term influence their ideas have had on American political thought Transatlantic Radicals uncovers the roots of their radicalism in the Old World and tells the story of how these men came to be exiled how they emigrated and how they participated in the politics of their adopted country Nearly all of these radicals looked to Paine as their spiritual leader and to Thomas Jefferson as their political champion They held egalitarian anti federalist values and promoted an extreme form of participatory democracy that found a niche in the radical wing of Jefferson s Republican Party Their divided views on slavery however reveal that democratic republicanism was unable to cope with the realities of that institution As political activists during the 1790s they proved crucial to Jefferson s 1800 presidential victory then after his views moderated and their influence waned many repatriated others drifted into anonymity and a few managed to find success in the New World Although many of these men are known to us through other histories their influence as a group has never before been so closely examined Durey persuasively demonstrates that the intellectual ferment in Britain did indeed have tremendous influence on American politics His account of that influence sheds considerable light on transatlantic political history and differences in religious political and economic freedoms Skillfully balancing a large cast of characters Transatlantic Radicals depicts the diversity of their experiences and shows how crucial these reluctant migr s were to shaping our republic in its formative years
