

Maya Salt Production And Trade

Ann M. Early

Maya Salt Production And Trade:

Maya Salt Works Heather McKillop, 2019-05-01 This book includes evaluation of the economics of salt production and trade from analyses of the spatial patterning of wooden buildings and associated artifacts that were mapped on the sea floor at the Paynes Creek Salt Works The book describes the discovery and mapping of the wooden architecture as well as the associated pottery and other artifacts on the surface and embedded in the sea floor during a systematic search for salt production in a large salt water lagoon system Punta Ycacos Lagoon in southern Belize *Maya Salt Production and Trade* Anthony P. Andrews, 1983 This concise and information rich study focuses on the importance of salt and its associated trade networks in the Maya area This work will surely be a useful one for Mesoamerican area specialists interested in trade and its role in the development of complex societies Latin America in Books [Maya Salt Production and Trade](#) Anthony P. Andrews, 1983 This concise and information rich study focuses on the importance of salt and its associated trade networks in the Maya area This work will surely be a useful one for Mesoamerican area specialists interested in trade and its role in the development of complex societies Latin America in Books [Archaeology of Ancient Mexico and Central America](#) Susan Toby Evans, David L. Webster, 2001 This reference is devoted to the pre Columbian archaeology of the Mesoamerican culture area one of the six cradles of early civilization It features in depth articles on the major cultural areas of ancient Mexico and Central America coverage of important sites including the world renowned discoveries as well as many lesser known locations articles on day to day life of ancient peoples in these regions and several bandw regional and site maps and photographs Entries are arranged alphabetically and cover introductory archaeological facts flora fauna human growth and development nonorganic resources chronologies of various periods Paleoindian Archaic Formative Classic and Postclassic and Colonial cultural features Maya regional summaries research methods and resources ethnohistorical methods and sources and scholars and research history Edited by archaeologists Evans and Webster both of whom are associated with Pennsylvania State University c Book News Inc [Encyclopedia of World Trade: From Ancient Times to the Present](#) Cynthia Clark Northrup, Jerry H. Bentley, Alfred E. Eckes, Jr, Patrick Manning, Kenneth Pomeranz, Steven Topik, 2015-04-10 Written for high school or beginning undergraduate students this four volume reference valiantly attempts to provide a historical framework for the perhaps overly broad concept of world trade Entry topics were selected on trade organizations influential people commodities events that affected trade trade routes navigation religion communic [Salt in the Earth Sciences](#) Webster Mohriak, 2025-08-12 A comprehensive review of salt deposition in sedimentary environments worldwide Salt is formed when water rich in evaporite minerals accumulates on the Earth s surface and then evaporates Over time pressure and tectonics change the structure and shape of salt layers Recent technological advances have improved the interpretation and modeling of subsurface salt structures Salt in the Earth Sciences Evaporite Rocks and Salt Deposition presents a global overview of salt deposition and deformation in sedimentary basins synthesizing data analysis observations theories and

modeling Volume highlights include Overview of salt use by humans from prehistoric times to the modern industrial world
Chemical and physical principles of evaporite deposition in sedimentary basins Effects of gravity and tectonic forces on rock
salt deformation Development of salt structures in orogenic belts and deep basins Seismic interpretation methods for
identification of subsurface salt structures Key sedimentological models for evaporite deposition in continental and marine
environments Global examples ranging from modern hypersaline rift lakes to ancient marine salt basins Browse the other
volume in this set Salt in the Earth Sciences Basin Analysis and Salt Tectonics The American Geophysical Union promotes
discovery in Earth and space science for the benefit of humanity Its publications disseminate scientific knowledge and
provide resources for researchers students and professionals **Salt** Heather Irene McKillop, 2002 In *Salt White Gold of the
Ancient Maya* Heather McKillop reports the discovery excavation and interpretation of Late Classic Maya salt works on the
coast of Belize transforming our knowledge of the Maya salt trade and craft specialization while providing new insights on
sea level rise in the Late Holocene as well BOOK JACKET Title Summary field provided by Blackwell North America Inc All
Rights Reserved **SLAA Newsletter**, 1983 *The Last Saltmakers of Nexquipayac, Mexico* Jeffrey R. Parsons, 2001
Caddoan Saltmakers in the Ouachita Valley Ann M. Early, 1993 At the Hardman site on the Saline Bayou in the Ouachita
River valley of Arkansas nearly 1 000 features were uncovered postmold outlines of structures an encircling compound fence
and other facilities pits hearths and human burials The features and midden contained saltpan and other ceramics lithic
artifacts and debris floral and faunal remains and human remains Analyses show the site had at least five components
including a Mid Ouachita phase ca A D 1400 1500 Caddoan farmstead and a Deceiper phase ca A D 1650 1700 Caddoan
habitation and burial site Occupants of the site evaporated salt from Saline Bayou water grew maize and other crops and
used a wide array of wild resources including large amounts of pine timber from the neighboring uplands Skeletal remains
show evidence of a previously unknown disease that may be related to salting but also show that the Hardman
inhabitants had better nutrition and general health than other nearby protohistoric populations with no evidence of disease
or social disruption from contact with Europeans Salting took place at the site from before A D 1400 to the end of the
Deceiper phase occupation Burial practices skeletal evidence and information from other sites in the Ouachita and Arkansas
valleys indicate salt was made for local consumption in the Mid Ouachita phase but became an item of trade with Arkansas
valley populations by the Deceiper phase Trade routes may have included canoe travel down the Ouachita River and up
Bayou Bartholomew to the vicinity of the Quapaw communities on the Arkansas River Salting however was probably
never more than a part time activity among farming families living along Saline Bayou The site was abandoned before
permanent European settlement in the valley **Print** Martha T. Mooney, 1995 Excerpts from and citations to reviews of
more than 8 000 books each year from 109 publications Electronic version with expanded coverage and retrospective version

Reconstructing the Past David M. Pendergast, Anthony P. Andrews, 2006 This memorial volume dedicated to Hal Ball gathers a selection of papers on the ancient past of the Maya Mesoamerica or Central American peoples It reflects the diversity of the honorand's interests in the ancient worlds represented and mirrors the varied ways in which scholars approach their reconstruction The chapters include examinations of the sites of Ecab Palenque Cuello and Lamanai the rollicking tale of an episode in the nineteenth century history of Copan a group of general studies that embrace a wide range of topics from Maya warfare to the Lamanai Temple type and an unusual class of artifact found in non Maya Mesoamerica a look at housework at Cihuatlan and at stone sculpture in El Salvador and a final chapter that suggests what one can learn from working in the tropical setting in which all of the research recounted here has taken place **Mesoamerican Lithic**

Technology Kenn Hirth, 2003 Any overview of prehispanic society in the Americas would identify its obsidian core blade production as a unique and highly inventive technology Normally termed prismatic blades these long parallel sided flakes are among the sharpest cutting tools ever produced by humans Their standardized form permitted interchangeable use and such blades became the cutting tool of choice throughout Mesoamerica between 600-800 B.C. Because considerable production skill is required increased demand may have stimulated the appearance of craft specialists who played an integral role in Mesoamerican society Some investigators have argued that control over obsidian also had a significant effect on the development and organization of chiefdom and state level societies While researchers have long recognized the potential of obsidian studies recent work has focused primarily on compositional analysis to reconstruct trade and distribution networks Study of blade production has received much less attention and many aspects of this highly evolved craft are still lost This volume seeks to identify current research questions in Mesoamerican lithic technology and to demonstrate that replication studies coupled with experimental research design are valuable analytical approaches to such questions **Bibliographic**
