*Electronic Resources Implications for Collection Management* shows librarians the strengths and weaknesses of electronic resources and the implications these resources have on collection management. The book then helps librarians incorporate electronic resources into their collections accordingly. Contributors in *Electronic Resources* provide a broad look at the ways in which electronic information affects the business of building and maintaining library collections. They examine the history of electronic resources in document collections and share with readers a thorough analysis of the gains and losses libraries can expect to experience in an increasingly digital environment. Readers also learn how to budget for both traditional and emerging information sources, the effects of electronic collections on the public services realm, how to assess the value of journals amidst the many different access and delivery mechanisms, how to use resource sharing as a solution to the archival problems which arise as libraries collect materials in continuously proliferating formats, selection criteria for electronic resources, how to assemble electronic resources into archives, social implications of electronic collections. Academic librarians in collection management will find *Electronic Resources* an essential resource for finding their place in the electronic environment. Librarians will refer to this volume again and again as they adjust to increasing dependence upon electronic resources for fulfilling their patrons' needs.

**Electronic Resource Management** Shiva Sukula, 2010. The present book will provide a base to librarians, information officers, technologists, students, and researchers to find ideas enabling them to develop multinational and cross-institutional e-resource management systems, as well as to enhance their knowledge, expertise, and abilities with regard to utilization of E-resources. The chapters presented are: Introduction to E-Resources, Managing E-Resources With Tools And Technologies, E-Resource Management Systems, Library Web Content Management, Networking Technologies For E-Resources, E-Archive And Digital Preservation, Retrieval Of Information From E-Resources, Cataloguing Of E-Resources, CrossRef And Resource Identification In Electronic Environment, E-Resources And Licensing, Open Access and E-resources and Digital Information, The Public Domain And Digital Copyright. It gives a reference framework for describing the electronic and web resources on the capacity building of libraries and information centers, as well as the users. This work will function as underpinnings to the concerned aspects and setting up and utilization of e-resources in libraries and information centers.
