Organizational Illusions:

Organizational Illusions A. W. McEachern, 1984 *Organizations in Depth* Yiannis Gabriel, 1999-08-31 The book is a good read Gabriel has an engaging writing style liberally interspersed with vignettes cases and quotes While the reader may not agree with some of what Gabriel is espousing the author presents his material in a non judgemental manner And who knows Maybe Gabriel is foreshadowing some new directions in organizational theory and even new research methodology

Journal of Occupational and Organizational Psychology This book is a comprehensive and systematic examination of the insights psychoanalysis can offer to the study of organizations and organizational behaviour Richly illustrated with examples Yiannis Gabriel s exhaustive study provides fresh understandings of the role of creativity control mechanisms leadership culture and emotions in organizations Core theories are explained at length and there is a chapter on research strategies Extensive reference is made to practical cases and there is a review of the key debates Organizational Change and Redesign George P. Huber (ed), William H. Glick, 1993 They also show how a variety of factors including demographics team structure and communication processes influence the effectiveness of key managers *Minds Unleashed* Ryan A. Tosi, W. Clay Hamner, 1985 **Judgment in Managerial Decision Making** Max H. Bazerman, Don A. Moore, 2012-10-16 Behavioral decision research provides many important insights into managerial behavior From negotiation to investment decisions the authors weave behavioral decision research into the organizational realm by examining judgment in a variety of managerial contexts Embedded with the latest research and theories Managerial Decision Making 8th Edition gives students the opportunity to understand their own decision making tendencies learn strategies for overcoming cognitive biases and become better decision makers Getting the Story Straight David A. Buchanan, 2001

National Isolation an Illusion Perry Belmont, 1925 **Communities at Risk** Stephen Robert Couch, J. Stephen Kroll-Smith, 1991 Communities in ever increasing numbers are facing the ravages of a modern form of calamity the chronic

technical disaster Unlike natural disasters that strike quickly and disappear chronic technical disasters such as chemical or radiation contamination slowly unfold trapping communities in seemingly never ending cycles of threat and disorganization The articles comprising this volume analyze community responses to a type of aversive agent for which there is neither tradition nor formal policy to insure an adequate repertoire of responses **In the Shadow of Organization** Robert B. Denhardt, 1989 Drawing upon critical social theorists like Habermas depth psychologists like Jung and phenomenologists like Husserl Denhardt shows how the ethic of organization inhibits the individual's search for meaning and then discusses strategies for enhancing the individual's role he champions independence expressiveness and creativity over discipline regulation and obedience *Introduction to Organizational Behavior* Larry L. Cummings, Randall B. Dunham, 1980

Illusions of Opportunity Sonia M. Ospina, 2019-01-24 Employees expect organizations to offer an equitable distribution of rewards in promotion compensation and job challenge to those who work hard According to Sonia Ospina the realities of the workplace confound that expectation since organizational practices of labelling and ranking individuals create inequality For this reason Ospina suggests that an appreciation of how employees experience and resolve the contradiction between expectation and reality is prerequisite to understanding work attitudes in contemporary organizations *Illusions of Opportunity* documents the pervasiveness of this contradiction by focusing on three groups of workers within a large public organization in a major city Exploring individual and collective attempts to make sense of reward distribution Ospina found that each group endorsed a different definition of merit The definitions represented an attempt on the part of each group to justify the claims of its own members to being organizational citizen who deserved recognition Drawing on the research traditions of organizational stratification the social psychology of justice and organizational behavior Ospina operates within a conceptual framework that links objective opportunity structures to employees subjective perceptions of justice Through this merger of the structural and the subjective she provides new insights into the social basis of work attitudes *Origins, Icons, and Illusions* Harold R. Bohrer, 1998 After elaborating extensively on the value of the scientific method this systems psychologist finds flaws in neo Darwinism generated as much by psychological biases as by gaps in the evidence One need not proceed too far into the 18 chapters to realize that the author's sympathies lie more with the Psychological Dimensions of Organizational Behavior Barry M. Staw, 2004 This comprehensive paperback book contains carefully chosen pieces that cover human behavior in organizations from individual motivation to organizational processes This anthology offers a broad mix of classic and recent articles it covers emerging areas of interest such as business ethics and processes of creativity and change This collection of readings is separated into four clearly defined dimensions why and how we work thinking and making decisions interacting with others social and group processes and facing the future creativity innovation and organizational leadership An excellent resource for managers and other executives who need to know how to effectively lead their departments this book provides the skills necessary for understanding the organization and how power influence and

interpersonal relations affect their businesses Organizational Reality Peter J. Frost, Vance F. Mitchell, Walter R. Nord, 1978 **The Technocratic Illusion** Flavia Derossi, 1982 Edition originally published in 1978 under title L illusione tecnocratica edited and revised by the author *The Great Illusion* Norman Angell, 1910 **The Shattered Illusion** John Kolasky, 1979
