Origin Of The Brunists The:

The Origin of the Brunists Robert Coover,2000 A coal mine explosion in a small mid American town claims ninety seven lives The only survivor a peculiar man subject to religious visions is adopted as a prophet and quickly gains a following Rapidly disseminated through the magic of media exposure the cult spreads across America and as its members gather on the Mount of Redemption to await the apocalypse Robert Coover lays bare the madness of religious frenzy and the sometimes greater madness of normal citizens Understanding Robert Coover Brian Evenson,2003 This text takes on the work of Robert Coover a major figure of postmodern metafiction In an analysis of Coover s short stories and novels it demonstrates how Coover writes in several different modes that cross over into one another **The Origin of the Brunists** Robert Coover,1971 **The Metafictional Muse** Larry McCaffery,2010-10-12 McCaffery interprets the works of three major writers of radically experimental fiction Robert Coover Donald Barthelme and Willam H Gass The term metafiction here refers to a strain in American writing where the self concious approach to the art of fiction making is a commentary on the nature of meaning itself **The Cambridge History of the American Novel** Leonard Cassuto,2011-03-24 An authoritative and lively account of the development of the genre by leading experts in the field **In a Dark Time** Joseph Dewey,1990 What was gunpowder Trivial What was electricity Meaningless This atomic bomb is the Second Coming in wrath Winston Churchill July 1945 Commencing earnestly in the1960s the American novel began its exploration into how mankind could adjustto life in the shadow of the mushroom cloud how we could begin to think aboutthe Unthinkable American writers faced squarely the age birthed by nuclearphysics and found in its very darkness difficult avenues to hope byrediscovering that most potent traditional response to a history in crisis the apocalyptic temper Dewey focuses on seven novelsthat touch the variety of generic experiments and postures of the post WorldWar II American novel These novels by Vonnegut Coover Percy Pynchon Gaddis and DeLillo represent a significant argument concerning the Americanliterary response to living within the oppressive technologies of the NuclearAge Departing from other studies that veer toward speculative fiction ortoward the more narrowly defined religious angles In a Dark Time defines the apocalyptic temper as a most traditionalliterary genre that articulates the anxieties of a community in crisis a wayfor that community to respond to the perception of a history gone critical byturning squarely to that history and to find in that gesture the way toward agenuine hope Dewey s new approach consistsof applying the theory of apocalyptic literature to a body of essentiallysecular writings Dewey resists the traditional approach studying worksdealing with nuclear devastation to focus on how a generation of literaryresponses have dealt with the larger questions about how to live with therecognition of End times Dewey convincingly demonstrates that this literaturereminds its moments in history that only in a dark time will the eye begin tosee Dissident Postmodernists Paul Maltby,2016-11-11 Critics who hold that postmodernist art is essentially adversarial and apolitical have ignored the historical context of the postmodern focus on the problems of language Paul Maltby examines a major current of postmodernist fiction

that can be read as a dissident response to developments of late capitalism that have transformed the field of language and communication

American Novelists Since World War II Jeffrey Helterman, Richard Layman, 1978 Contains alphabetically arranged entries that provide career biographies of eighty American authors who either began writing novels after 1945 or have done their most important work since then each with a list of principal works and a bibliography

Encyclopedia of Apocalyptic Literature Valerie P. Zimbaro, 1996 This text which is by no means inclusive of all of the world's apocalyptic writings is intended both as an introduction to this timely literary genre as well as a tribute to the world's major authors whose prose and poetry reflect their respective hopes, dreams, and fears for the world's last days. Although the book is intended to address apocalyptic literature across cultures, there is a significant dearth of material related to works by writers from Eastern cultures. This omission is an obvious one inasmuch as the concept of an apocalypse or a singular cataclysmic ending is essentially antithetical to most cyclical Eastern philosophies. In an attempt to analyze such apocalyptic themes of either non-Western primitive or pre-literate cultures, a list of entries pertaining to significant apocalyptic myths, legends, and scriptures has been provided in appendix D.
