academics at their own games (as he usually does) with a model explaining how the lack of a 'reformist option' excluded all possibility of a neo-colonialist takeover. But he writes as a participant. He is not just recording and analysing a situation. And unquestionably the most moving contribution is by Jamal Ahmed, a graduate from teaching to diplomacy, who uses the life of al-Shaikh al-Ibrahimi to portray the whole movement for Algerian independence, back from Abd-al-Qadir, a continuing tradition of proud resistance. As he moves back and forth, defying chronology (and distressing the editors), he builds up an inspiring picture, half glorious, half tragic, wholly serious, looking not only to the past but to the unborn generations who will continue the tradition. Here indeed is a fitting tribute to Thomas Hodgkin, who has always seemed to be inspired by a vision, and has illuminated (and I hope will long go on illuminating) with his own charisma Africanist disciplines now readily becoming routinized.

Organizing African Unity.

By JON WORONOFF (Metuchen, N. J., The Scarecrow Press, 1970). x + 703 pp. No price stated.

The creation of the Organization of African Unity in May 1963 has been justly described as 'little short of a miracle'. Its establishment was accompanied by a barrage of hostile criticism from outside Africa and considerable doubts in some quarters within Africa concerning the wisdom of attempting a continental grouping at that time. But the movement for unity had been mounting since the founding of the Pan-African congresses at the beginning of the twentieth century, when visionaries like Dr. W. E. B. DuBois and later, George Padmore, strived to unite men of colour in the Americas and the Caribbean as well as throughout a colonial Africa in a vast struggle for national liberation or at least full civil rights, the assertion of the dignity of black people and the rediscovery of the African personality, history, and culture. The aims of the Heads of State and Government who met at the Addis Ababa summit conference were far more modest, but just as urgent. The heir of the Pan-African tradition, Kwame Nkrumah of Ghana declared: 'The masses of the people of Africa are crying for unity.' But his pleas for the immediate establishment of a Union Government for a United States of Africa were effectively countered with more realistic proposals for an institution that, in the words of President Ahmadou Adhijo of the Cameroon, would 'weigh up experiences, decide upon alternatives, standardize decisions made on the main affairs of continental importance or which require a common stand to be taken before international opinion.'

A valuable introduction to the theory and practice of African unity, Jon Woronoff's book focuses largely on the O.A.U. Tracing Pan-Negro and Pan-African origins, as well as presenting a clear if brief account of earlier efforts at regional or continental unity in Africa, the author discusses in detail the structure of the O.A.U. and analyses and sums up masterfully the first seven years of its work. In addition, he briefly examines other African international organizations, such as the *Organisation Commune Africaine et Malgache* (OCAM) and the All-African Trade Union Federation (AATUF). However, despite a concluding suggestion that the O.A.U. might grant consultative or observer status to already existing 'peoples' organizations', Woronoff does not attempt to examine those bodies, whose importance in African political life has steadily declined during the last seven years.

Woronoff is especially rewarding in his succinct, yet comprehensive account of the establishment and subsequent activities of the O.A.U. and related agencies. Initially at least, foremost these was the Liberation Committee, designed to hasten and assist the complete decolonization of Africa and put an end to all
