The Middle Ages in Popular Imagination Paul B. Sturtevant, 2018-02-28 It is often assumed that those outside of academia know very little about the Middle Ages But the truth is not so simple Non specialists in fact learn a great deal from the myriad medievalisms post medieval imaginings of the medieval world that pervade our everyday culture These like Lord of the Rings or Game of Thrones offer compelling if not necessarily accurate visions of the medieval world And more they have an impact on the popular imagination particularly since there are new medievalisms constantly being developed synthesised and remade But what does the public really know How do the conflicting medievalisms they consume contribute to their knowledge And why is this important In this book the first evidence based exploration of the wider public s understanding of the Middle Ages Paul B Sturtevant adapts sociological methods to answer these important questions Based on extensive focus groups the book details the ways both formal and informal that people learn about the medieval past and the many other ways that this informs and even distorts our present In the process Sturtevant also sheds light in more general terms onto the ways non specialists learn about the past and why understanding this is so important **The Middle Ages in Popular Imagination** will be of interest to anyone working on medieval studies medievalism memory studies medieval film studies informal learning or public history

Education and Intercultural Narratives in Multicultural Classrooms Claudio Baraldi,2006 1 volume presenta un'ampia varietà di prospettive teoriche e di ricerca sull'educazione interculturale di tipo linguistico pedagogico e sociologico Questi

contributi evidenziano anzitutto che gli atteggiamenti etnocentrici sono ancora diffusi in molte realtà educative europee e che quindi richiedono interventi efficaci per favorire un'educazione interculturale efficace. In secondo luogo sottolineano tre aspetti particolarmente rilevanti nel rendere efficace l'educazione interculturale: le azioni dialogiche da parte dei docenti e esperti, la promozione della partecipazione attiva dei giovani e la creazione di condizioni di adattamento effettivamente interculturale. Il volume spiega come la molteplicità delle narrazioni e la varietà dei linguaggi possano essere costruite nell'interazione tra docenti e studenti e fornisce suggerimenti per un uso attento del linguaggio che permetta di mediare tra le diverse prospettive culturali e linguistiche.
