New Mediumship:

The New Mediumship Grace Cooke,1965-02-01 A practical guide on the development of true clairvoyance which should enable the reader to be of real help and service to others through understanding of them It also provides insights into the differences between psychic and spiritual development Channeling Jon Klimo,1998-04-17 In this study of channeling earlier called spirit communication or mediumship Klimo who teaches at Rosebridge Graduate School in the San Francisco Bay Area writes with clarity about the communication of information to or through a physically embodied human being from a source on some other level or dimension of reality other than the physical as we know it He profiles recent channels and their sources goes back to preliterate societies and the advent of monotheism and identifies as channels such figures as Moses Solomon Muhammad Merlin Nostradamus Swedenborg and Edgar Cayce He discusses the sorts of people who are channels kinds of information channeled sources of information channeled and varieties of channeling like clairvoyance and automatic writing According to Klimo few people tap into their abilities to perform channeling and for those who think they can he serves as guide *Mediums and Mediumship* Thomas Robinson Hazard,1872 **The Two Worlds** ,1929

Mediumship Oscar A. Edgerly,1910 **Light** ,1930 **Summit of Spiritual Understanding** ,1929 Science of the Seance Beth A. Robertson,2016-11-28 In the 1920s and 30s people gathered in darkened rooms to explore the paranormal through seances They were motivated by grief spiritual devotion or a desire to be entertained Beth A Robertson resurrects the story of a small transnational group and their quest for objective knowledge of the supernatural casting new light on how science metaphysics and the senses collided to inform gendered norms in this era Robertson draws back the curtain to reveal a world inhabited by researchers spirits and spiritual mediums Representing themselves as masters of the senses untainted by the effeminized subjectivity of the body psychical researchers in Canada the UK and the US believed that they could use machines and empirical methods to transform the seance into a laboratory of the spirits and a transnational empirical project However mediums and ghostly subjects could and did challenge their claims to scientific expertise and authority The New Psychic Medium Ana-Lana,2020-09-25 The first of the Truest Source Connections Series and your introduction to the new Psychic Source and new Psychic Medium ways This includes psychics who do not wish mediumship to be a gift Many supernatural extras are viewed differently and the Psychic Medium is the way to understand the negative and positive to psychic skills required to help Psychic Source communicate effectively to those whose psychic skills haven t advanced yet Visit our website blog or listen to our podcast to learn more about the new time with your Truest Source Connection and co creating a personal time to the new psychic ways The Epistemology of Spirit Beliefs Hans Van Eyghen,2023-04-14 This book assesses whether belief in spirits is epistemically justified It presents two arguments in support of the existence of spirits and arguments that experiences of various sorts perceptions mediumship possession and animistic experiences can lend justification to spirit beliefs Most work in philosophy of religion exclusively deals with the existence of God or the

epistemic status of belief in God Spirit beliefs are often regarded as aberrations and the falsity of such beliefs is often assumed This book argues that various beliefs concerning spirits can be regarded as justified when they are rooted in experiences that are not defeated It argues that spirit beliefs are not defeated by recent theories put forth by neuroscientists cognitive scientists or evolutionary biologists Additional arguments are made that traditional theistic belief is epistemically linked to spirit beliefs and that unusual events can be explained in terms of spirit activity The book draws on theistic arguments phenomenal conservatism and defenses of religious experiences to argue for the justification of spirit beliefs The arguments draw on examples from various religious traditions ranging from Christianity and Islam to Haitian Vodou and Tibetan Bon The Epistemology of Spirit Beliefs will be of interest to researchers and advanced students working in philosophy of religion religious epistemology ethnography and cognitive neuroscience The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution NonCommercial CC BY NC 4.0 International license
