Grove,2017-06-05 Countless books and articles have offered remedies for the poor learning outcomes of American schoolchildren Virtually all of these publications share one thing in common They propose improvements in the policies and practices controlled by adult educators Grove believes that our

children's poor learning cannot be totally the fault of educators. Our children are active participants in classrooms so if there is a problem with how well our children are learning then we as parents might be at fault. To discover what our part is and explore what can be done about it, Grove draws on over 100 anthropological studies of children's learning and child rearing in China, Japan, and Korea. They reveal that those children, even the youngest ones, are highly receptive to classroom learning. Why do they come into classrooms with attentive and engaged attitudes? How did they acquire the drive to learn? Can American parents benefit from knowing how Chinese, Japanese, and Korean parents think about and carry out child rearing? **The Drive to Learn** explores these questions.

**Positive Affirmations for Black Men** Tyrone Coleman, 2022-10-31

Your mind is a powerful tool and positive affirmations can help you sharpen it. Watch what happens when you do. To be a Black man today means confronting deeply embedded racism in every social institution on a daily basis. Even if you're not always aware of what you're up against, you probably have to fight harder than you should in most areas of life. This can take its toll, and often you end up fighting yourself as much as you do the world around you. The more barriers you're faced with, the more you will build up inside your own mind. But there's good news: You can reprogram yourself so that those mental barriers never stand in your way. And the process is surprisingly simple. Denzel Washington and countless other celebrities attribute their success to the use of positive affirmations, and you can too. Affirmations are amongst the simplest self-help strategies you can use to nurture your self-confidence and self-belief. Simply by moving your focus away from your perceived inadequacies and towards your strengths, both those you already possess and those you want to work on, you can change your fortune. And science gives the stamp of approval. Regularly repeating affirming statements encourages your brain to believe that they're facts, and when you really believe you can do something, your actions will follow. The secret is to choose the affirmations tailored precisely to the area you need to empower yourself in, and this book has you well and truly covered. Inside you'll discover what you can learn from the inspirational story of Langston Hughes and how his success shows the power of affirmations. How to overcome your health and fitness challenges using positive affirmations. How to attract love and friendship to your life using the power of self-belief. The secret to positioning yourself for a future of wealth and success using nothing more than the way you talk to yourself. The art of changing your mindset in order to blossom into an inspiring and effective leader. The trick to manifesting your own self-confidence for great effect in every area of life. How to make sure you never see yourself as the victim and why this is so important. Practical strategies to combine with your positive affirmation practice for the fullest effect. A targeted prayer for every section so you can align your worship with your goals. Positive affirmations for every area you wish to develop, broken down into goal-specific sections. And much more. When the world is against you, it's easy to absorb its messages and allow your mind to put up barriers that prevent you from reaching your highest potential. But self-talk is an incredibly powerful tool. Simply by regularly running through positive affirmations, you can change the wiring in your mind and open doors you didn't even realize you had closed. Reach your full potential, no matter
