**The Nature of the Italian Party System** Geoffrey Pridham, 2016-01-29 This study first published in 1981 focuses on a single region of Italy Tuscany and examines the internal and external relationships of the parties their evolution and their roles in the years 1975 1980 Looking in depth and detail at the activity of the parties in Tuscany the book identifies and examines different factors of change and continuity and comes to the conclusion that there has been significant movement in the political positions and strengths of the respective parties as well as in their strategic courses and inter relationships This volume has a particular importance due to the questioning of many previously held assumptions of the country s party system in the light of political and socio economic change during the 1970 s This title will be of interest to students of European politics

**Ethnicity and Nationalism in Italian Politics** Margarita Gómez-Reino Cachafeiro, 2017-03-02 Employing primary sources and interviews with protagonists of the rebellion of the Italian North this book explores the invention of the Padanian nation and the construction of identity politics in Northern Italy It reveals for the first time the connection between the ethnic wave in European party politics in the 1970s and the rise of a new radical right nationalism in the 1990s The author highlights the way in which the discourse of national minorities was instrumental in the rise of a new political agenda that links territory identity and cultural rights to create new boundaries of exclusion In addition to clarifying the connection between the new nationalism and racism by demonstrating how cultural distinctiveness is constructed in contemporary European politics this unique book also explores the dynamics of new party mobilization and the symbolic resources of nationalist rhetoric This book presents for the first time data on political participation both party elites and members and the real dimension of the party organization

**Changing Party Systems in Western Europe** David Broughton, Mark Donovan, 1999-01-04 This is an analysis of the changing pressures and demands placed on party systems in 11 countries in Western Europe since 1945 This book includes studies of the party system in Britain France Italy and Germany as well as studies of Spain Portugal Ireland Sweden Austria Belgium and the Netherlands Five major themes are examined in each chapter First the broad development of the party system is accompanied by a discussion of how different party system typologies have been applied to each country Secondly a detailed discussion of the historical background to party system developments is provided dealing with the main divisions derived from the typology of Lipset and Rokkan Thirdly the most important contextual variables are considered in terms of the electoral environment within which the party system operates Next consideration is given to the degree of unfreezing of the party system since 1945 and the changing balance between stability and change Finally major questions of change and adaptation are examined updating the text

**Masters of Political Science** Donatella Campus, Gianfranco Pasquino, 2009-09-01 For a while now political science as a discipline has been big enough in terms of the number of academics and analytically mature enough to justify reflections on and reviews of its achievements In fact there is no lack of general handbooks dictionaries and state of the art assessments as well as

reflective journals such as the ECPR's own European Political Science which are useful in helping us to understand and evaluate where we currently are and where we might still need to go. The focus of these texts however is on particular concepts, themes, research areas, institutions or behaviour. What they rarely do is indulge in a critical reflection on the political scientists themselves, especially those who are commonly accepted as having made the most significant contributions to the growth of their discipline. This book fills an important gap in the growing reflective literature on the political science discipline; it consists of a series of objective profiles of the Masters of Political Science written by political scientists who have read and studied their work and who are therefore in a position to evaluate the nature of their contributions.

The Masters  
Robert Dahl, Anthony Downs, David Easton, S. E. Finer, Samuel P. Huntington, Juan J. Linz, Seymour Martin Lipset, Giovanni Sartori, Sidney Verba, Aaron Wildavsky, Hans Morgenthau.

**Masters of Political Science** was originally published in Italian by il Mulino Publishing House.

**Crisis and Transition in Italian Politics** Martin Bull, Martin Rhodes, 2014-03-05

Since 1989 Italian politics has witnessed changes that have placed it under an international spotlight. This analysis looks at this period of Italian politics through the prism of the changes of the early 1990s.

[A Natural Experiment on Electoral Law Reform](#)  
Daniela Giannetti, Bernard Grofman, 2011-02-01

In the early 1990s major electoral reforms took place in both Italy and Japan, each replacing a form of proportional representation in which voters cast a ballot for a party list with a mixed member system in which voters cast ballots for individual candidates and party lists. The reforms were enacted by political elites in the context of divisions within the dominant party, changing patterns of party support and party splits in efforts to retain power while responding to charges of corruption, clientelism and lack of accountability. The experiences of both countries provide a laboratory in which to investigate the effects and implications of the reforms and more broadly to analyze voter behavior in the context of institutional change. The introduction provides an overview of post-WWII politics and electoral reform in Italy and Japan. In each of the next four chapters, specialists in Italian and Japanese electoral politics are teamed up to review data both before and after the reforms. Within this comparative framework, the authors explore such topics as changes in party competition, candidate selection mechanisms and intra-party politics. The concluding chapter considers the longer-term consequences, both anticipated and unanticipated, of the reforms. Despite superficially similar conditions, the effects in the two countries were dramatically different: in Japan the new system has taken hold with minor modifications, while in Italy there was a reversion to a proportional representation system. As the essays in this volume demonstrate, to understand why similar reforms had such different effects in the two countries, we must examine how electoral systems are embedded in broader institutional and social arrangements and at the complex interplay of political geography, political history and the rational calculations of political actors.
