**The Gospel Uncensored** Alden Swan,2010-10-18 It is for freedom that Christ has set us free Many people have been taught that Christianity is a religion in which you must do certain things in order to receive certain benefits and that you must do more and try harder to be accepted The truth is faith in Jesus is enough Any attempt to add anything even good works to this simple good news is to lose the Gospel completely Blue and Swan look at Paul s letter to the Galatians and how his passionate case for the simple gospel of grace applies to many of the issues facing the church today As one reviewer stated The Gospel Uncensored is a fervent book on the grace of God and how this gracious work of Christ leads to freedom It is a heartfelt plea to the reader to get over Jesus plus religion and come back to Jesus plus nothing For it is in Jesus and Him alone that we have freedom Its time to be free **Polar Human Biology** O. Human Biology documents the proceedings of the SCAR IUPS IUBS Symposium on Human Biology and Medicine in the Antarctic held at the Scott Polar Research Institute Cambridge England on September 19 21 1972 This book compiles review papers of expeditions conducted by several scientists demonstrating the multidisciplinary aspects of the work carried out in both polar regions The first portion of the compilation describes the problems encountered by Antarctic expeditions in the 1930s and today which illustrates the tremendous changes in the way in which Antarctic expeditions operated then and now Following the review papers medical and dental aspects are also described including a brief discussion on microbiology The final section of this book deals with psychological and behavioral aspects indicating that the interpretation of physiological studies of the effects of cold on man would be greatly helped by knowledge of the psychological effects of the polar situation This text is a good reference for students or individuals conducting research on human and marine biology in the Antarctic regions
