Maturing Sun:

Keats's Boyish Imagination Richard Marggraf Turley, 2012-12-06 For many readers John Keats's achievement is to have attained a supreme poetic maturity at so young an age. Canonical poems of resignation and acceptance such as *To Autumn* are traditionally seen as examples par excellence of this maturity. In this highly innovative study however Marggraf Turley examines how for Keats an insistence on boyishness in the midst of apparent mature imagery is the very essence of his political contestation of the literary establishment.

Keats's Negative Capability Brian Rejack, Michael Theune, Nicholas Roe, 2019 Few critical terms coined by poets are more famous than negative capability. Though Keats uses the mysterious term only once a consensus about its meaning has taken shape over the last two centuries. Keats's Negative Capability: New Origins and Afterlives offers alternative ways to approach and understand Keats's seductive term.

Understanding Literature, 1989 Presents twenty three oral interpretations of short stories, poems, nonfiction, epic poetry and drama mostly from English and American literature. Includes works by Saki, O. Henry, Toni Cade Bambara, Lewis Carroll, William Shakespeare, Homer and others. Primarily geared for classroom learning.

Modernity's Mist Emily Rohrbach, 2015-12-01 Modernity's Mist explores an understudied aspect of Romanticism: its future-oriented poetics. Whereas Romanticism is well known for its relation to the past, Emily Rohrbach situates Romantic epistemological uncertainties in relation to historiographical debates that opened up a radically unpredictable and fast approaching future. As the rise of periodization made the project of defining the spirit of the age increasingly urgent, the changing sense of futurity rendered the historical dimensions of the present deeply elusive. While historicist critics often are interested in what Romantic writers and their readers would have known, Rohrbach draws attention to moments when these writers felt they could not know the historical dimensions of their own age. Illuminating the poetic strategies Keats, Austen, Byron and Hazlitt used to convey that sense of mystery, Rohrbach describes a poetic grammar of future anteriority of uncertainty concerning what will have been. Romantic writers she shows do not simply reflect the history of their time; their works make imaginable a new way of thinking the historical present when faced with the temporalities of modernity.

Ode Consciousness Robert G. Eisenhauer, 2009 Ode Consciousness examines a preeminent literary form in its three thousand year history, navigating between philosophy and literature, offering cross-cultural perspectives on a poetic logic informed by polar intensities of sensuous cognition. Making a double incision on the corpus, Robert Eisenhauer interprets works by Henry Vaughan and the modernist Frank O'Hara, foregrounding the text but also the text's message and the dialogical weave of enunciation. The ancient Chinese ode translated by Karlgren and estranged by Pound anchors sentience in the flora and fauna of physical nature and the I Ching or Book of Changes offers insights on poetry, psychoanalysis and aleatoriness per se. The rise of the ode in the West is contemporary with that of a philosophical discourse concerning clarity and obscurity of thought. While Milton widens the esoteric scope, Lovelace concretizes ode consciousness.
