## **Seeking Asylum:**

Desperately Seeking Asylum Helen T. Boursier, 2019-11-19 Told through heart wrenching testimonies photographs and artwork of refugees fleeing their homelands Desperately Seeking Asylum describes firsthand accounts of the harrowing and dangerous journey immigrants are willing to endure knowing that they might not even make it onto US soil Desperately Seeking Asylum prioritizes the testimonies of refugee families and unaccompanied children who are seeking asylum in the United States from Central America primarily Guatemala El Salvador and Honduras Their desperate and heart wrenching stories disclose why they fled their homelands their experiences along the treacherous overland journey and the harsh reality of how the United States treats these families and children upon arrival to the United States It critiques US complicity to the violence they are fleeing and discloses how national leadership shapes US immigration policies and practices including the blatant documented violations against asylum seekers at the US Mexico border Most notably it offers transparency on US immigration practices at the US Mexico border which violate existing US and international laws that are intended to protect asylum seekers including the current official practice of blocking bridges with turnbacks to prevent inadmissibles from applying for asylum in the United States It explains protections mandated by US law for unaccompanied children who are in US custody and discloses violations which keep these children detained excessive lengths of time in substandard for profit facilities which are overseen by the government and funded by taxpayers Boursier also deconstructs the complicated asylum process including examining the credible fear for asylum procedure showing how technical terms and language are used to justify injustice at the border Desperately Seeking Asylum offers hope for a new vision with alternative options and practical actions which assist migrants through humanitarian aid on both sides of the border The witness for compassionate and responsible response by people of conscious becomes an antidote to injustice against asylum seekers Instead of the current administration manipulating US laws to support its ulterior motives and political agenda Boursier asks readers to hold US elected officials accountable to the same Rule of Law that the United States demands of refugees Ultimately Boursier suggests a spectrum of options for practical ways to make the political personal through public witness and civic engagement to transform the broken immigration process for refugees who are desperately seeking asylum

**UK Borderscapes** Kahina Le Louvier, Karen Latricia Hough, 2023-09-04 This book analyses bordering practices and their negative effects as well as the many creative and often grassroots ways in which borders are resisted and reinvented From the hostile environment to Brexit and the Nationality and Borders Bill the UK border regime has become increasingly strict and complex operating both at the edge of the state and within everyday life in unprecedented ways At the same time this securitisation approach is often contested and its effects are fought daily by many groups and individuals This book explores this tension documenting and analysing how the

contemporary UK border is imagined constructed deconstructed and reconstructed in multiple ways To draw together the different pieces that compose this evolving and conflicting landscape this book uses the concept of borderscapes which views borders as sites of multiple tensions between hegemonic non hegemonic and counter hegemonic imaginaries and practices This lens enables contributors to draw a multifocal overview of the UK border that includes the different human and material actors that form it the spaces and practices they shape and the imaginaries and counter imaginaries that emerge from their conflictual encounters Bringing together contributions by researchers from a variety of disciplines this book will be of interest to scholars and students in the fields of migration and border studies refugee studies human geography criminology sociology and anthropology
