Hard Choices: Moral Dilemmas in Humanitarian Intervention, Jonathan Moore, ed. (Lanham, Md.: Rowman & Littlefield, 1998), 322 pp., \$24.95 paper.

The International Red Cross, under whose auspices this collection of sixteen articles is published, counts among its basic principles "humanity, impartiality, and independence," in the words of its current president, Cornelio Sommaruga (p. xi). But the fact that Red Cross and other humanitarian workers have become targets of violence in recent years is an indication that these principles are under stress, if indeed they make sense anymore at all. The marriage of convenience that has tied the effectiveness, or even possibility, of humanitarian intervention to military means raises the question whether we are dealing in this area with the moral choices indicated in this book's subtitle, or with political ones that are concealed (if increasingly less so) beneath the ideology of humanitarianism.

Written under the shadows of Cambodia, Haiti, Bosnia, Somalia, and Rwanda, each of these essays shows a different aspect of the dilemmas confronting humanitarian workers as well as the multiple and often incompatible tasks that fall within the range of humanitarian intervention. The practitioners who reflect on their experience here strike a consistent theme: Many difficult decisions had to be made, along with trade-offs between consistent concern for human rights and the desire to provide safety, needs assistance, or developmental aid. Colin Granderson, executive director of the OAS/UN International Civilian Mission in Haiti since 1993, recounts that it was impossible for his mission to remain neutral while the Haitian military committed human rights violations, which ultimately led to the military's refusal to recognize it. His mission later found itself in conflict with the UN Mission in Haiti, deployed in 1995 to create a new police force and professionalize the army. The civilian mission had to decide whether or not to denounce
