Sexual Ecology

Jin-Ying Zhang

Sexual Ecology:

Sexual Ecology Gabriel Rotello, 1998 AIDS and the Destiny of Gay Men This is the most important book about AIDS since Randy Shilts's *And the Band Played On* And it is far better than Martin Duberman's *The Nation* **Beyond Sexuality** Tim Dean, 2000-09 *Beyond Sexuality* points contemporary sexual politics in a radically new direction Combining a psychoanalytic emphasis on the unconscious with a deep respect for the historical variability of sexual identities this original work of queer theory makes the case for viewing erotic desire as fundamentally impersonal Tim Dean develops a reading of Jacques Lacan that rather than straightening out this notoriously difficult French psychoanalyst brings out the queer tensions and productive incoherencies in his account of desire Dean shows how the Lacanian unconscious deheterosexualizes desire and along the way he reveals how psychoanalytic thinkers as well as queer theorists have failed to exploit the full potential of this conception of desire The book elaborates this by investigating social fantasies about homosexuality and AIDS including gay men's own fantasies about sex and promiscuity in an attempt to illuminate the challenges facing safe sex education Taking on many shibboleths in contemporary psychoanalysis and queer theory and taking no prisoners *Beyond Sexuality* offers an antidote to hagiographical strains in recent work on psychoanalysis Foucault and sexuality *Human Sexual Ecology* Robert E. Joyce, 1980-01-25 *Focus*, 1997 *Righteous Rebels [Revised Edition]* Patrick Range McDonald, 2022-08-30 In a riveting portrait of the world's largest HIV/AIDS medical care provider award-winning journalist Patrick Range McDonald reveals AIDS Healthcare Foundation's unlikely rise from a feisty grassroots organization during the height of 1980s AIDS crisis to its position today as a global leader in the fight to control HIV and AIDS This untold story highlights AHF's bold history of activism its hard-charging advocacy on the behalf of vulnerable people and its heroic efforts to provide free HIV drug treatment around the world With insider access McDonald follows AHF for a year as it clashes with the Obama administration the state of Nevada and the World Health Organization He interviews AHF's key players including firebrand president Michael Weinstein and travels to AHF outposts around the globe Along the way McDonald discovers that AHF is a tenacious people power organization that brings hope and change to nearly all corners of the world *Immovable Laws, Irresistible Rights* Christine Pierce, 2000 *Same sex partnerships Pregnancy through in vitro fertilization Ending one's own life in dignity* All are deemed inherently wrong by the standards of natural law ethics but for many people they represent legitimate life choices that are morally right Now a leading feminist critic of the natural law tradition explores the ongoing confrontation between natural law and moral rights to argue that rights constitute a more solid grounding for ethics in human affairs and for feminist thought In this volume Christine Pierce's important essays including the celebrated *Natural Law Language and Women* expand, reflect, and refine this central controversy Reaching back to Aristotle and Aquinas and drawing on modern papal encyclicals and Supreme Court cases Pierce demonstrates that the natural law tradition with its doctrine of a supposed hierarchy of natural purpose has served to mystify women's nature and thereby justify restricting

women to a predetermined social stratum Addressing issues that concern not only feminism but legal theory as well she defends her views on equality and universalization against a growing postmodern critique and presents rights theory as an alternative to an ethics of responsibility based on Aristotelian notions of friendship and trust Through tightly constructed arguments presented in engaging prose Pierce conveys her deep knowledge of legal philosophy and her passion for rights as she takes on such issues as AIDS gay marriage animal liberation and feminist separatism She combats the prevailing view of Plato as sexist and explores Sartre s views of holes and slime She also examines the work of contemporary authors in ecology biology sociobiology and religion to reveal their reliance on nature for ethical conclusions and she criticizes recent efforts to root a feminist natural law in Thomism With natural law concepts now in fashion with many conservatives and even some Supreme Court justices Pierce s essays offer a necessary perspective on where current legal and ethical thinking is headed **Immovable Laws Irresistible Rights** is invigorating reading for all scholars students and interested readers who seek a better understanding of these arguments and the issues affected by them **The Nation** ,1997 **The Case for Gay Rights**

David A. J. Richards,2005 As Americans wrestle with debates over traditional values defense of marriage and gay rights reason often seems to take a back seat to emotion In response legal scholar Richards reflects upon the constitutional and democratic principles relating to privacy intimate life free speech tolerance and conscience that underpin these often heated debates The distillation of Richards s thirty year advocacy for the rights of gays and lesbians his book provides a reflective treatise on basic human rights that touch all of our lives He places in context two key Supreme Court cases the 1986 Bowers v Hardwick decision and the 2003 Lawrence v Texas decision which overturned it Drawing upon his own experiences as a gay man Richards interweaves personal observations with philosophical political judicial and psychological insights to make a case that gays should be entitled to the same rights and protections that every American enjoys From publisher description
