Transformation of British Life, 1950-2000 Andrew Rosen,2003 During the second half of the 20th century life in Britain
was transformed by radical changes in standards of living affecting housing food and transport as well as by major shifts in
social cultural and moral values This study examines the diverse developments which so altered the country and its people
examines the remarkable extent to which a marked decline of popular support for orthodox institutions such as the monarchy
religion marriage and trade unions resulted in a far more flexible and diverse society a society in which women the young
and members of ethnic minorities played increasingly important roles It also stresses the extent to which British society has
been influenced by foreign developments Separate chapters on the impact of American culture and European institutions as
well as modern architecture and planning all explore the ways in which British life has been profoundly affected by factors
which are not normally considered by social historians as well as students of modern British culture and society *The
