## **Moral Notions:**

Moral Notions Julius Kovesi, 1967      An Enquiry into Moral Notions (Routledge Revivals) John Laird, 2014-01-09 First published in 1935 this book compares and examines what John Laird termed the three most important notions in ethical science the concepts of virtue duty and well being Laird poses the question of whether any one of these three concepts is capable of being the foundation of ethics and of supporting the other two This is an interesting reissue which will be of particular value to students researching the philosophy of ethics and morality      **An Enquiry Into Moral Notions** John Laird, 1936 Compares and examines what John Laird termed the three most important notions in ethical science the concepts of virtue duty and well being Poses the question of whether any one of these three concepts is capable of being the foundation of ethics and of supporting the other two      **Meaning and Morality** Alan Tapper, T. Brian Mooney, 2012-07-05 The essays in this volume address the importance of Kovesi's work on moral philosophy and concept formation The essays extend Kovesi's insights on moral philosophy into broader areas and compares and contrasts his work with that of key ancient and contemporary thinkers      Vision and Virtue Stanley Hauerwas, 2025-02-15 Christian Ethics has been far too concerned with ethical decision making It would seem that both the advocates of situation ethics with their ever more outlandish paradigms and the proponents of traditional moral theology with their carefully qualified abstract deliberations have focused too narrowly upon the individual faced with a moral choice This collection of essays comes as a much needed change Whereas others have bemoaned the state of Christian ethics today Hauerwas has attempted to work out a serious alternative to the situationists and to the traditional moral theologians The book is divided into three parts The first and perhaps most important deals with theoretical and methodological issues The second under the title the new morality and normative ethics applies his method to a number of areas of individual morality such as abortion and euthanasia The third tackles certain problems in social ethics namely the non resistant church politics and American culture      **The Origin and Development of the Moral Ideas** Edward Westermarck, 1908      **Foundations of Economic Analysis of Law** Steven Shavell, 2009-07-01 In this book Steven Shavell provides an in depth analysis and synthesis of the economic approach to the building blocks of our legal system namely property law tort law contract law and criminal law He also examines the litigation process as well as welfare economics and morality Aimed at a broad audience this book requires neither a legal background nor technical economics or mathematics to understand it Because of its breadth analytical clarity and general accessibility it is likely to serve as a definitive work in the economic analysis of law      *Sanctification of life the aim of morality* Moritz Lazarus, 1901      Essays on the Principles of Morality, and on the Private and Political Rights and Obligations of Mankind Jonathan Dymond, 1880      *The Ethics of Judaism: Sanctification of life the aim of morality* Moritz Lazarus, 1901      **Mental and Moral Science** Alexander Bain, 1875      *A Critical Analysis of Student Persistence at the University of Iowa* Russell Tallman (Warrick), 1929      **Reasons and the Fear of Death** R. E. Ewin, 2002 Philosophers have

argued back and forth about whether the fear of death can be justified by arguments of rationality Ewin philosophy U of Western Australia suggests that both sides have gotten the question wrong Fear of death he suggests is prerational underlying all of the concepts with which we reason Rather than reifying Reason we should see reasons as emerging from a complex of emotion cognition and other aspects of being human that emerged from our evolutionary history In approaching reason and death in this way we can shed new light on the moral judgements on euthanasia and related questions Annotation copyrighted by Book News Inc Portland OR *Studies in Education from the Department of Education of the State University of Iowa* ,1929 Everybody's Magazine ,1914 *American Public Schools* John Swett,1900 **The Elements of General Method** Charles Alexander McMurry,1892 **Albany Review** ,1907 **pt. IV. The data of intellectual knowledge: sense perception. pt. V. Truth and certitude: their criteria and motives** Peter Coffey,1917 *Reason and Revelation* William Horne,1876
