With two updated chapters on word analysis skills strategies, the text continues to give teachers the information and techniques they need to implement a systematic and functional program of word analysis that is integrated with students reading and writing. The text also presents the theory behind the methods so students will be free to choose, adapt, and/or construct their own approaches as they create literacy instruction. This edition endorses the viewpoint that a well-prepared classroom teacher is capable of effectively instructing most struggling readers and writers. *Statement, 2000*

Developing Higher-level Literacy in All Students Thomas G. Gunning, 2008. Help your students develop higher level literacy skills required by today's demanding curriculum and high stakes tests with Thomas Gunning. Known for his practical research-based approach, Dr. Gunning offers classroom teachers the tools to promote higher level literacy in all students. In his new book, he presents assessment procedures in a step-by-step format to guide teachers in reading assessment and includes model lessons for all strategies and techniques. Teachers rave about Thomas Gunning's strategies to promote higher level skills. I think this book would make an exceptional subject for an in-service workshop for all teachers of any school since the strategies can be applied at any grade level. I would enjoy participating or teaching a workshop of these ideas. The author seems to have created a knowledge base that is desperately needed in today's educational environment, especially in the world of high stakes testing, merit pay, and low performing schools. Sylvia Hoke, MacArthur Junior High School, AR. I find the organization of the book logical, moving from an overview of specific issues to assessment, to remedies, and application. The writing style is personable and clear. The anecdotes and practical applications are of course the good stuff, and it is impossible to ever have enough of them. Polly Bill Brandywine School District, DE. Take a look inside. Provides step-by-step lessons, examples, and practice materials for each higher level literacy teaching strategy. Addresses the needs of struggling learners with examples of maximum scaffolding that is gradually reduced to help teachers instruct all students. Presents systematic, specific instruction from easiest to complex and provides a comprehensive program for teaching students how to respond to higher level constructed response questions. Aligns instruction with assessment of higher level skills. Meet the author! Dr. Thomas Gunning currently teaches at Central Connecticut State University. He has conducted research on word recognition strategies and has created his own word analysis program, which is known as Word Building. Dr. Gunning has also created a number of informal assessment devices and conducted research on higher level literacy skills and reading interests. He has devised a collaborative comprehension approach known as Reading Seminar. Dr. Gunning has written several published comprehension programs: two published programs for struggling readers in the secondary school and a number of books for pre-service and in-service teachers, including *Creating Literacy Instruction for All Students* (Sixth Edition, 2008), *Assessing and Correcting Reading and Writing Difficulties* (2006), *Closing the Literacy Gap* (2006), *Building Literacy in the Content Areas* (2003), and *Building Words: A Resource Manual for Teaching Word Analysis and Spelling Strategies* (2001). All are published by Allyn

Bacon **Literacy as Social Practice** Vivian Maria Vasquez,2004 The editors discuss the transformative possibilities of literacy through a collection of 12 articles originally published in Primary Voices K 6 Based on a view of literacy as social practice this book highlights the ways in which classroom teachers and educators have practiced and imagined teaching literacy in everyday classrooms The twelve essays published here originally appeared in the NCTE journal Primary Voices K 6 and highlight four key issues essential to literacy practice in elementary classrooms access meaning making inquiry and transformation The individual essays challenge us to go beyond a view of literacy as a simple matter of skill and help to realize its transformative power In providing a contemporary conceptual framework and further resources the editors have looked not only back to Primary Voices K 6 but also forward noting that the practices reported in the book represent only the tip of what is possible and including throughout the volume discussions of what the future might look like and how particular sets of social practices might mature and evolve **Geographic Literacy Through Children's Literature** ,1997-09-15
