Religious commitment is experienced as a decision point itself the effect of the individual s experimental immersion in the Centre s activities During this time the claims of the Buddhist worldview are tested against personal experience and convictions Using rich ethnographic data and Lofland and Skonovd s experimental conversion motif as a model for theorizing the stages of involvement leading to commitment the author demonstrates that this study has a wider application to our understanding of the role of alternative religions in western contexts

Why Christianity Happened James G. Crossley,2006-11-03 Looking beyond theological narratives and offering a sociological economic and historical examination of the spread of earliest Christianity James Crossley presents a thoroughly secular and causal explanation for why the once law observant movement within Judaism became the beginnings of a new religion First analyzing the historiography of the New Testament and stressing the problematic omission of a social scientific account Crossley applies a socioeconomic lens to the rise of the Jesus movement and the centrality of sinners to his mission Using macrosociological approaches he explains how Jesus Jewish teachings sparked the shift toward a gentile religion and an international monotheistic trend Finally using approaches from conversion studies he provides a sociohistorical explanation for the rise of the Pauline mission
