Religious Movements And Social Structure:

Social Structure and Social Interaction Readale Collier, 2018-07-28 The question needs to be pondered over as we have entered in the new millennium. On what way we are going? What is the nature of social transformation? What socio-economic forces and value systems are emerging in the country? Keeping in view the expected consequences of socio-economic development as an instrument of change in the structure and culture, the present book mainly deals with Social Structure and Social Interaction. This book provides valuable insights into social structure and change in a complex society. Well researched and lucidly written, this volume will be widely welcomed by all those involved in the study of sociology, social anthropology and social change. This book is of great help and utility to all those who are interested in knowing the changing social structure.

New Religious Movements and Rapid Social Change James A. Beckford, 1986-11-01 The book shows how rapid social change gives rise to novel religious interpretations and how new religious movements in turn try to influence the process of change. This analysis is illustrated by studies of the advanced societies of North America and Europe and of Japan during the first phase of industrialization and of countries and regions in the developing world. New religious movements are revealed as a normal aspect of social life and as critical indicators of social change. This is reflected in each movement's social composition, teachings, values, religious practices and organizational structures, as well as their engagement in politics, business and their structuring of social relationships. Publisher's description

The Centrality of Religion in Social Life Eileen Barker, 2021-11-18 James A. Beckford's work is internationally acclaimed not only in the sociology of religion but also in other fields of the social sciences. Beckford has long been arguing that the barriers that have grown up between the different sub-disciplines should be broken down with those specialising in religion becoming more cognisant of new theoretical developments and sociologists in general becoming more aware of the significance of developments in the religious scene. This book is a collection of essays written in Beckford's honour, drawing on a number of religious themes that have been central to Beckford's interests whilst also offering a significant contribution to our understanding of the wider society. A central theme is modernity and its relation to the post-modern and how religion affects and is affected by the dynamics of contemporary society, with the primary focus of many of the chapters being a concern with how society copes with the minority religions that have become visible with the globalising tendencies of contemporary society. The contributors who come from America, Asia and various parts of Europe are all internationally renowned scholars. Beckford's most important publications are listed in an Appendix and the volume opens with a short account of his contribution to sociology by Eileen Barker, the editor, and James T. Richardson.

the tragic conflagration that engulfed the Branch Davidians in Waco Texas the deadly sarin gas attack by the Aum Shinrikyo in Tokyo the murder suicides by the Solar Temple in Switzerland and Canada and the collective suicide by the members of Heaven s Gate They explore the dynamics leading to these dramatic episodes in North America Europe and Asia and offer insights into the general relationship between violence and religious cults in contemporary society The authors conclude that these events usually involve some combination of internal and external dynamics through which a new religious movement and society become polarized
