The Rise of Christian Kingship in the Early Medieval West Conor O'Brien,2026-01-06 Over the course of the early Middle Ages Christianity changed politics and politics changed Christianity Christianity emerged in the pagan Roman Empire and early Christians consequently developed a secular understanding of politics where the religious identity of their ruler was irrelevant by the time the synthesis of early medieval Christianity was achieved in the ninth century Carolingian Empire however a new model of Christian kingship had emerged linking the legitimacy of a ruler to the quality of their Christianity Conor O'Brien traces the slow complex and only ever partial way in which the concept of Christian kingship arose in the Latin West over the five centuries up to 840 Taking a comparative approach that is sensitive to regional variation and the interconnected nature of the post imperial Latin West the book presents a novel overview of the transformations of both religion and politics in the early Middle Ages Drawing on recent anthropology and global history approaches to sacred kingship it takes seriously both continuity and change over time to show how the relationship between early medieval Christianity and kingship was above all driven by people's search for good government Christian kingship arose in societies

where it proved a useful mechanism for addressing the relationship between the ruler and the ruled In doing so *The Rise of Christian Kingship in the Early Medieval West* provides not just a rich reconstruction grounded in the primary evidence of changes in political thought and practice in the early Middle Ages but also contributes to wider historical discussions about secularity sacred kingship and the relationship between politics and religion **The Century Dictionary: The Century dictionary** ,1914
